| Poultry                      |      |             |  |
| registration<br>number       |      |             |  |
| (if applicable)              |      |             |  |
|                              |      |             |  |
| Completed by:                |      |             |  |
|                              |      | Date:       |  |
| Please print in block capit  |      |             |  |
| Signed:                      |      |             |  |
|                              |      |             |  |
|                              | *    |             |  |
| Veterinary surge             | on : |             |  |
| Name:                        |      | MRCVS No: _ |  |
| Please print in block capit  | als  |             |  |
| Signed:                      |      |             |  |
| *                            |      |             |  |
| optional                     |      |             |  |

Following assessment we have decided that the poultry or other captive birds in our care will be: (Please indicate by placing a tick in the relevant boxes)

| Housed only                                |     |
|--|-----|
| Allowed controlled access to outside areas | N/A |

## Part 1: To be completed by ALL keepers of poultry and other captive birds

| 1. | Are you registered on the Jersey Poultry Register? (if you keep more than 30 birds it is <b>mandatory</b> , but it is recommended that all birds keepers register) |
|----|--|
|    | www.gov.je/poultry   |
|    |  |
|    |  |
|    |  |
|    | What are a second and in place to a second that wild hinds connect access stored by adding   |
| ۷. | What arrangements are in place to ensure that wild birds cannot access stored bedding, feed and water intended for your birds?                                     |
|    |  |
|    |  |
|    |  |
|    |  |
|    |  |
| 3. | What steps have you taken or are in place to reduce movements of people, vehicles or equipment into or out of the areas where birds are kept?                      |
|    | equipment into or out or the areas where birds are topt.   |
|    |  |
|    |  |
|    |  |
|    |  |
|    |  |
|    |  |

| 4. What written records do you have in place relating to movements of people, vehicles and equipment into or out of your bird area?  |
|--|
|  |
| What robust (written) records do you have in place relating to movements of eggs and poultry or other captive birds?   |
|  |
| 6. Please detail the precautions you have put in place to avoid the transfer of possibly contaminated material into or out of your bird area, and how do you ensure the effective cleansing and disinfection of all personal protective equipment, vehicles and machinery entering your bird site? |
|  |
| 7. What vermin control programmes have you put in place?   |
|  |
| 8. What cleaning and disinfecting routine do you use for bird housing, cages, feed store or pathways leading to and from bird areas?   |
|  |
| 9. Is your disinfectant Government approved?   |
| Are you using the correct disinfectant concentration in your boot dips (when applicable)?  |
| For the list of disinfectants please check: <a href="http://disinfectants.defra.gov.uk/DisinfectantsExternal/Default.aspx?Module=ApprovalsList_SI">http://disinfectants.defra.gov.uk/DisinfectantsExternal/Default.aspx?Module=ApprovalsList_SI</a>  |
|  |

| 10. If you keep domestic waterfowl (ducks, geese etc.) and poultry (chickens, turkeys, guinea fowl etc.) – how do you keep them separate?  |   |    |  |
|--|---|----|--|
|  |   |    |  |
|  |   |    |  |
|  |   |    |  |
| •  | 11.State the frequency of how often you check the integrity of the building where birds are kept for any defects that would allow water ingress or other contamination? |    |  |
|  |   |    |  |
|  |   |    |  |
|  |   |    |  |
| 12. Changes in birds' health, feed or water intakes should be closely monitored, as they could provide early signs of disease. Things to look out for include, but are not limited to:             |   |    |  |
| <ul> <li>Drops in egg production of 5% or more over a three day period</li> <li>Changes in colour and / or consistency of your birds' faeces</li> <li>Decrease in water or feed intakes</li> </ul> |   |    |  |
| If you see any of the above signs, it is recommended that you consult your private veterinary surgeon immediately.   |   |    |  |
| Do you monitor your birds health, feed and water intakes?  |   |    |  |
| Health   | Yes   | No |  |
| Feed   | Yes   | No |  |
| Water  | Yes   | No |  |
|  |   |    |  |
|  |   |    |  |

| 13. Provide details of your veterinary surgeon.   |
|---|
|   |
|   |
| 14. Is dedicated disinfectable or single use disposable footwear and clothing available for use to access the poultry or other captive bird area? Have all who are required to access such areas been made aware and instructed in their use? |
|   |
|   |
| 15. If you keep more than 30 poultry or other captive birds, record below the locations of your disinfection points and how they are maintained?  |
|   |
|   |
| 16. What facilities do you have available to house your birds?  |
|   |
|   |
| 17. How will you identify and address any specific welfare concerns associated with housing?  |
|   |
|   |
|   |

| 18. What enrichment will you add to your housing? Further guidance available here:                  |
|---|
| https://www.gov.uk/government/publications/poultry-on-farm-welfare                                  |
|   |
|   |
|   |
|   |
|   |
|   |
| 19. How will you cover any permanent openings in your bird housing to prevent access by wild birds? |
|   |
|   |
|   |
|   |
|   |
| <b>1</b>  |

## Part 2: To be completed by keepers of more than 200 poultry

| <ol> <li>Is your premises divided into a poultry (live-bird) part, a private (ancillary use) part;<br/>and a restricted access (bio-secure barrier) part?</li> </ol>   |
|--|
|  |
|  |
| 2. Do you have signage at the entry and exit points to each zone on your premises?   |
|  |
| <ol> <li>Is access to a live-bird part restricted to essential authorised personnel only?<br/>(Inspection visits and official visits who are authorised by law to be on premises should carry on)</li> </ol> |
|  |
| 4. What measures are taken at the entry to the live-bird part in the hygiene area?   |
|  |
| 5. Are only essential vehicles and equipment entering the live-bird area?  |
|  |

|       | s the exterior of any vehicles cleansed and disinfected (focusing on wheels, wheel arches and where appropriate foot-wells) both at entry and exit of live-bird area?   |
|-------|---|
|       |   |
| е     | For vehicles only entering the private (ancillary use) part of your premises is the exterior of any vehicles cleansed and disinfected (focusing on wheels and wheel arches)?                                    |
|       |   |
|       | At the end of production cycle what cleaning and disinfecting procedures are in place?  |
|       |   |
|       | Where do you store your waste and fallen stock (dead birds)? Who collects the allen stock and how frequently?   |
|       |   |
| е     | What records are in place to demonstrate that egg room floors, farm production area entrances are cleansed daily with a suitable approved non-tainting disinfectant to ninimise any possible foot transmission? |
|       |   |
| 11. F | How do you dispose of your waste or surplus eggs? Do you keep records of that?  |
|       |   |

| 12. What records are in place to record the removal, storage and spreading of poultry manure?                      |
|--|
|  |
|  |
| 13. Have all staff been briefed and trained on the need for increased biosecurity and no contact with other birds? |
|  |
|  |
