

Tenth Partnership meeting – 30th September 2016

The new Framework for School Review

The Department presented the new Framework for School Review. Members of the Partnership agreed that piloting this review is a sensible first step and would welcome the Partnership being part of receiving feedback.

Aligning the Partnership work plan with the revised Jersey Education Business Plan

The key priorities of work for the Partnership were agreed to be:

- Outcome from the Teachers' Survey;
- Input to the review framework;
- Develop the autonomy agenda with a view of a Cooperative model;
- Professional Conference to take stock and launch the next business plan. This should be practical for the teachers.

Communications

The issue of bringing together the Partnership and Forum was discussed and it was reiterated that it is up to the unions to agree to do this and that the principles of these meetings cannot be changed.
