Hi Keith,

The BBC just wanted to send a reporter to cover one of the pupils' events ([Redacted] suggested HV) as well as attending Tuesday's parent event at JCG where they've asked about Natasha and the Minister's availability.

Do you want me to ask [Redacted] if they'd be intending to speak to students/teachers while we wait for the MELL to confirm he's happy with the below?

Kind regards,

Hi Keith,

In regards to [Redacted] query below, I've confirmed the BBC can send a reporter to JCG and that the MCF will be available for interview. Additionally, it is expected Natasha will be available to speak to afterwards as well. I've also confirmed with [Redacted] that it would be possible for the BBC to send a reporter in on Tuesday for one of the pupil's sessions with Natasha.

Are you content for me to go back to [Redacted] and confirm these arrangements? Additionally [Redacted] please can you check the MELL is happy with this.

Kind regards,

Let's pick this up when we next meet. This could be good. We will need to ensure it fits in with wider Government activity in this space.

Subject: Parents/Student Talk

Hi

There has recently been much interest in online harm and internet safety for children recently. In reaction to this and as an outcome identified in the Digital Strategy, we would like to hold an event at the Arts Institute where a specialist discuss with parents the impact of Social Media on children. In addition reiterate the messages in an appropriate and interactive way to students. The specialist, Natasha Devon, has already provided some talks to Jersey schools, that were received extremely well.

Is this something you would be supportive of?

Kind regards

[Redacted]. As part of efforts to educate, I am delighted to be able to offer the opportunity for parents and carers to attend a free event in September with specialist speaker, Natasha Devon. The event forms part of Jersey's wider Online Harms Strategy which is supported by a cross-ministerial group, and will help equip parents, carers and young people with the knowledge they need to make informed decisions around their access to, and use of technology.
