Hi [REDACTED] and [REDACTED]

Please could you make sure the CM, Lucy and I have a detailed timeline of engagement with the Reds this year, as well as details of all support given to the Reds by GoJ and all debt owed to GoJ by the Reds, in a pack for the States Assembly, in case questions come up in QWON.

We should also have details of their request for future funding that would have covered the coming months.

Kind regards

Good morning Minister,

I'm aware you're in France, however on the back of this morning's news about Jersey Reds ceasing trading, [REDACTED] from the JEP has asked if you'd be available for a phone interview. Assuming it would be along the lines of the economic impact of the club closing / visitor numbers in shoulder months etc.

Is this something you may have time for?

Subject: Jersey Reds

Dear Kirsten and Ian,

I hope this note finds you both well. I am writing on behalf of the Reds to see if there is any update following the Council of Ministers meeting last week and to ask if you require any further information from us at all at this point?

We also wanted to let you know that since last our meeting, we have been actively talking to our sponsors preparing them for increased package costs for the 2024/25 season, which in general has been very positively received. We have also been asking for thoughts to help us in the short-term. As a result, we are already discussing a couple of out-sourcing ideas with them that could potentially yield 80-100k savings this season.

Additionally, with the help of [REDACTED] we have identified 4 new potential investors, as well as 3 which we have sourced ourselves.

Obviously, all of these ideas take time to finalise, but we are very focused on doing so.

We understand that Kirsten will be meeting [REDACTED] on September 27th, and hope that this will provide some further clarity and confirmation of GoJ support we have been discussing.

You will be aware that we will need to pay salaries this coming week and so it would be great to understand where we are on this subject.

We understand the additional work this is causing for all concerned and truly appreciate your time and interest.

Thanks and best regards,

Mark A Morgan
Chairman - Jersey Reds

Thank you, given the information and your clarification, one has to ask how we have actually paid out money this season? The Directors appear to be at risk of having knowingly issued contracts that they can't fulfil as it clearly isn't a going concern.

Good morning Ministers,

The Santander report was put together in the past month and uses information provided by Jersey Reds representatives.

I too would have expected Jersey Reds to have been a higher payer vs peer clubs. We are told that the average player salary is 26k gross salary so adding employer soc sec etc takes us to the c.30k you have referenced.

We don't hold any information on insurance arrangements for the company / players. The clubhouse and pitches are owned by JRFC (the amateur club) so public liability insurance likely to sit with them rather than Jersey Reds.

From the numbers provided it's evident that current wage bill cannot be supported through revenue generation hence search for 'investors'. Jersey Reds has received repeated communications from officers and the EDTSC Ministerial team that no further funds would be made available and they had to live within their means. In practice, that almost certainly means a lower standard of playing resources, lowering of ambition and possibly a controlled descent into a lower league.

Kind regards

Richard

Thank you for your paper on Jersey Reds. Do we know if the Santander report was for this season or last season and do we have a comparison on Salaries for both seasons?

I am surprised that Jersey are only 5th as I expected them to be in top 3, can we confirm that we are comparing like for like with other clubs? The non playing costs seem to be very high and the playing costs lower than I expected. 36 players on the website would give an average cost of 30K including Soc sec etc.

Do we have details to confirm that the club has insurance both for the company and its players?

Many thanks
Andy

Good morning Ministers,

I believe meetings have taken place variously with Messrs [REDACTED] Morgan and Chown. I should also add that the Santander report was out together with full co-operation and information flow from Jersey Reds.

Fundamentally, Jersey Reds has run out of road with prospective investors and in any event do not appear investable. There seems little prospect of shareholder value being built within the Jersey Reds business model and any likely return on investment beyond the emotional participation.

Hi Lucy,

Many thanks and I fully concur with your view.

I believe you would face challenge from other sports as to how unbudgeted - and not insignificant – funds can be sourced for Jersey Reds whilst we cannot support their sport or indeed some other pressing needs across our wider community.

Subject: Reds - update ahead of Wednesday's meeting
Date: Tuesday, August 29, 2023 14:40 BST

Good afternoon Ministers.

I had a call with Mark Chown over the weekend and wanted to provide you with a readout of that call ahead of tomorrow's meeting.

The purpose of the call was to provide constructive feedback following Mark Morgan's email and to facilitate a constructive meeting tomorrow.

The ask from Reds is for 500k over the next 4 months. This is over and above the 220k provided via Santander last month.

This is requested as a grant and the same amount is required in 2024.

What you will hear from Mark and his fellow directors is that the reason the club finds itself in a perilous financial position is not through unmanaged spend and failing to operate within a budget but rather due to a number of failings on the part of the Government.

These were:

- 1 - the removal of ongoing grant funding
- 2 - Gov encouraging multiple fiscal stimulus bids which were unsuccessful
- 3 - Gov failing to deliver on the Island Stadium

There has been little in the way of creative proposals to share the downside / risk of the assumptions in their business plan not materialising (either in the short term or over the next two seasons) and I have suggested that some thought be given to this as Ministers may wish to see risk shared if they are to support financially given that Gov has:

- 1- provided 450k under the previous Government "to secure Championship rugby in Jersey"
- 2 - deferred c.400k in ITIS, GST etc
- 3 - reprofiled the repayment of the above debt from a 12 to a 36-month payment plan and
- 4 - underwritten 80% of a 500k Santander payroll loan.

The call ended with a reminder that a failure by Government to find the required cash by the close of business on Wednesday would result in the certain closure of the business. I reiterated the difficulty that emergency payments posed to Treasury and all Departments of Government.

I am on annual leave this week but will be joining the meeting online and M available to speak ahead of the meeting if required.
