Who would be best placed to assist PCS and M&D with the RTP work?

Thanks, Tom.

Subject: Nominations for Departmental Leads, Records Transformation

Dear all,

Further to the OpCo meeting on 14 June 2023, please may I ask for the outstanding Accountable Officer nominations for a named person in each

department to take responsibility for delivering the Records Transformation Programme (RTP)?

Whilst RTP is delivering infrastructure for records transformation, the realisation of benefits of the programme are dependent on actions being taken in departments as record owners. These actions require a nominated lead to take this responsibility on behalf of Accountable Officers.

RTP Leads appointed by Accountable Officers of:

Department

RTP Lead

CLS

COO-Cabinet Office

CYPES

Economy

External Relations

HCS

I&E

JHA

suggested, please confirm

OCE-Cabinet Office

SPPP-Cabinet Office

suggested, please confirm

T&E

Background

The organisation currently holds 98M sheets of paper records, resulting in a variety of risks and operational problems. Some departments will be unable to relocate records to new facilities in the new GoJ HQ or future Health settings.

The Records Transformation Programme (RTP) is delivering infrastructure to enable GoJ departments and non-ministerial departments to organise

and modernise their records. The transformation will result in:

- * Greater compliance with the Data Protection (Jersey) Law 2018, the Public Records (Jersey) Law 2002, and the GoJ Privacy Framework.
- * Making records more accessible when needed, enhancing service to islanders.
- * Freeing up space for critical estates programmes including the Office Accommodation Programme and Healthcare Facilities Programme.
 * Modernisation and efficiency of records management.

The realisation of the benefits of RTP is dependent on actions being taken by departments as the entities responsible for their own records. Following a briefing, the following next steps were agreed by OpCo on 14 June 2023 on behalf of their departments:

- 1. Accountable Officers to review obligations under the Data Protection Law (Jersey) 2018, Public Records (Jersey) Law 2002
- 2. Accountable Officers to provide a named person in each department to deliver RTP.
- 3. Accountable Officers to ensure that within their departments:
 - * Records must be identified and organised.
 - * A clear retention schedule must be developed, approved and maintained to allow this organisation to happen.
 - * The department is responsible for organising & managing records and documenting the retention schedule.
 - * RTP team is in place until end 2024, provide support and guidance to the dept lead.
 - * Establish departmental deadlines for organising records
- 1. Accountable Officers to review monthly RTP metrics in OpCo

ELT Briefing

The SRO and Programme team for RTP wish to brief ELT in the coming month, and will be sharing reporting of RTP progress, risk and benefit realisation.

Kind regards,

Hi

Thank you for getting this done - appreciated.

I have some observations/reservations on some points, but given that we'll be revisiting this during 2024, am content for to add my e-sig to this version as providing a good starting point from which we can develop further next year.

Cryoserver

Thanks again.

Kind regards, Tom.

Subject: People & Corporate Services Retention Schedule

Dear Tom

Please find attached the revised People & Corporate Services retention schedule which has been approved by Linda Romeril at Jersey Archive.

I have been working with

in records to pull this together into the new template and into a more comprehensive document.

Please can you review and sign if you agree with the content. I will be looking to review again in 2024 based on anything significantly changing with connect (when I do DPIA reviews and SOP reviews) and any other elements of data processing we take on.

Many thanks
