Issue: the press office has received follow-up queries and interview requests re New River

Background: all local media have asked about, or run, a story about New River, using info from the [REDACTED] and Companies House, plus answers to questions sent to the press office. They are now asking for interviews and answers to follow-up queries:

[REDACTED] want an interview with the CM and are also asking - Will CP be taking up available share options? And will CP's online bio be amended to say investment vehicle is not yet complete?

[REDACTED] want an interview with the CM, DCM and CP, and are also asking - What are the civil service rules on outside employment/directorships? What due diligence took place in this case? Can you confirm the accuracy of the statement's assertion that the Deputy Chief Minister cleared the appointment?

Action: Answer queries where possible

Timing: let media know today what response they are likely to receive
