Subject: Environmental Health.

Dear [REDACTED] thank you for your paperwork to fill in..
I do admit to signing the said petition, but I find the wording rather strange.

I do not remember seeing the wording of the petition, which I believe was sent to you. Although on occasions there is an odour from the Hospital Catering but I would not call it foul. Muck spreading on the fields now that IS foul.

I would think that possibly people living behind it would find the smell different than I do. I will not be completing the paperwork as I do not agree from my point of view. Do you require the paperwork sent back to you?

Yours Sincerely
[REDACTED]
