Dear All,

Please excuse me but when am I supposed to read the 111 pages and then consider the matters carefully.

Please may I ask that we give ourselves some time to consider this report. I am not one for delaying matters but I think unless we cancel all family Easter celebrations we will arrive at the debate on Tuesday ill prepared and that will not be good for anyone. I am afraid I do have a full family weekend and will not be able to consider this report properly.

I am not sure who it would fall to ask for a two week delay but who ever it is, please consider doing so.

Paul

**Subject:** P130 - debate on Future Hospital Funding Strategy

**Date:** Thursday, April 13, 2017 21:59 BST

Dear All,

I have been contacted by a number of members about the resumption of the P130 debate on the Future Hospital Funding scheduled for next Tuesday and have also noted comments expressed by others over the last 24 hours via email.

As the debate is scheduled to resume the day after the Easter holidays (next Tuesday 18th April) it gives members little time to read and consider the Corporate Services Scrutiny Panel's (CSSP) recently published 111 page report over this holiday weekend.

Furthermore the CSSP also lodged an amendment to P130 on April 4th that fundamentally changes the proposition and again there is little opportunity for members to consider and question this proposal in the detail that it surely deserves.

As a result I contacted Deputy Le Fondre, as Chairman of the Corporate Services Scrutiny Panel and suggested that it might be more practical to defer the debate for one sitting, so that all members would have enough time to consider all the facts relating to what is probably, one of the most significant decisions we will make.

Deputy Le Fondre has informed me that he and his Panel believe that the debate should proceed as planned next week. This is an entirely fair position for the panel to take.

However as quite a number of members clearly believe a delay for one sitting would help them, I would like to give notice that I intend to offer members that choice. I will therefore ask members to decide next Tuesday whether they would like to defer P130 for one sitting.

If members chose to defer the debate for one sitting, I will arrange a briefing to allow both myself, my officers and our independent advisors to be questioned about both the proposal in P130 and the alternative option proposed by the CSSP.

Of course the CSSP may feel it appropriate to brief members separately about their proposal together with their advisors, but that is a matter for them.

If any member has any queries please let me know.

Kindest regards,

Alan

John

For transparency please kindly forward to all members copies of all responses you have received/monitored regarding whether or not to continue with P130/2016 tomorrow.

I ask for this because I have seen very little in the way of email traffic between members and it will aid informed decision making as to whether we continue with the debate tomorrow or seek a rescheduling to the next available date.

As an aside are you and your panel open for members to contact your advisors directly to answer any queries that members may have?

Regards

Eddie

Well said Paul!

Hopefully a few more SM's will have similar observations and then I will say that I spoke to Deputy Le Fondre and suggested we jointly agree to delay until the next sitting in light of their last minute amendment. However the panel considered that option but would not agree to a delay!

Happy Easter!

Chris,  
On the other hand Scrutiny could take the high ground and lead by example rather than just following suit, especially when we are about to make probably the most important decision that the States has ever made.

Alan,  
Please accept my apologies for COM this morning as I have a pair of new  
Footpaths to open on the north side of the airfield along with children from St  
Peter's and St George's school at 1000.  
Best regards  
John R
