Subject: Skatepark - why LQ was chosen, more information on the satellite facilities and what work is planned next
Attachments: Skating Satellite Facilities Explained & what next 20200522.pdf

Dear Andy and Ellen,

Further to the presentation on the skate park to you on the 13th May – further work has been done to:

(a) provide more clarity around why LQ was chosen as the preferred location for the new skatepark and
(b) explain further why the continued development of ‘satellite’ facilities is so important in proving skating places and spaces in and around St. Helier.

The last slide also details what Officers plan to do next (commencing 1st June).

If you have any comments/thoughts/ideas or concerns please could you let [REDACTED] or myself know.

Many thanks

Barclay Harvey
