Hi John

As you've found out, these documents are not on the online list of inquiry documents. I'll find out why from [REDACTED] Programme Officer, and ask [REDACTED] to correct this asap.

As a quick solution, I've asked John Nicholson to locate these documents and forward to you today.

I'll also ask Peter to forward an electronic copy of the Inspector's Report to you, as you should then be able to click on the links within the report, including all the documents.

I'll come back to you asap.

Regards

Yan

Hi John

Here is a link to the Future hospital 2018 public inquiry: <https://www.gov.je/Government/PublicInquiries/Pages/NewHospital.aspx>

Here is a direct link to the Inquiry Documents List, as included in the Inspector's report:

<https://www.gov.je/SiteCollectionDocuments/Government%20and%20administration/LI-Inquiry%20Documents%20Current.pdf>

You should be able to access all the inquiry documents from this page.

Let me know if you need anything else or any documents printed.

Yan

I need the link to the doc list which was at the back of the inspectors report. It is more updated that that on gov.je / inspectors website . I want to read the JAC comments which were received after the inquiry which the inspector refers to.

Regards

John

Subject: Letter from Future Hospital Panel to Environment Minister

Dear All

Please find attached letter from Deputy Kevin Pamplin, Chairman of the Future Hospital Review Panel, to the Minister re the Future Hospital Planning Application.

Deputy Pamplin is asking the Minister the following three things, and I've added my suggested response in red underneath each:

1. set out in response to this letter his proposed timeline for reviewing the Planning Inspector's report and making your final decision.

The Minister cannot provide a specific timeline for determining the planning application. He has received the Inspector's report, is giving this and other Inquiry documents very careful consideration and will determine the application as soon as he feels ready to do so.

2. make himself available to attend a public hearing with this Panel once he has made his decision.

Yes , with suitable notice.

3. share his final decision with the Panel, in confidence, at the earliest opportunity

His decision, once made, will be shared with the applicant and then made public. The Minister considers Section 12 of the Planning Law requires him to publish his decision immediately it is made , and is therefore is preventing from publishing the decision with the Panel in confidence ahead of making this public. [REDACTED]

Please let me know your thoughts in relation to the above so that I can draft a Minister response, which I need to get back to them early next week.

Regards

Yan

Date: Wednesday, January 09, 2019 17:47 UTC

Not sure, but I think we notified them in the morning when we were up at HDF, and made the decision fairly promptly afterwards (couple of hours max)

There are no new issues identified, and there are only two potential outcomes, the applicant should already be prepared for either.

The risk of giving the applicant more time is that the decision becomes leaked, on purpose or not.

John: Do you remember how long we gave the applicant before going public in Jan 2018, as this seemed to work well last time?

Date: Thursday, January 10, 2019 17:23 UTC

Andy

I appreciate your intentions, ideally yes a collective view of States members would be helpful and if a debate had happened in the States already then the outcome could have been considered during the inquiry. But this debate is being held after the inquiry and after the inspector report.

So the problem with your suggestion is that members will need to have access to the inspectors report to make the political judgment as to whether the public interest overrides the planning balance judged against the IP as concluded by the Inspector. The law unequivocally requires me to make a decision before the inspectors report is published and for me to avoid doing so would re-open the whole matter and undermine the Inquiry process in the public eye. The process is intended to give a binary decision.

I am clear that if the inspectors recommendation were overrode there would be a challenge and maybe in the Court by way of JR which I would guess lead to many months delay. The system needs a clear decision. In making it I want it to be clear that my decision is in respect of an application and not the site. The way remains open for a revised application which avoids the planning damage reported by the inspector.

This one is no hiding place, there is no way out

Regards

John

Subject: hospital position - final advice/suggestion
Importance: High

Dear John,

One final suggestion and piece of advice from me before the final button is pushed which I would like you to consider please.

I say this as a result of further thought overnight and also further to the Health Ministers position again stated today in the JEP. I also say this with me taking a more strategic government position, as opposed to my specific planning role, which I can't ignore.

This is the biggest decision that the planning system will have been asked to deliver in recent memory, and arguably the biggest ever given to the SoJ. Therefore, I feel there is an argument for a slight variation in process.

I agree that you need to make clear the planning issues with the current application and the challenges this specific application has.

One thought, you could be open and clear that you are "minded to refuse", and to list and show your reasons on Monday. There is no reason why this can't be public and shared.

I am very troubled about the public interest test and the impact this decision will have on the scheme. I think there is a high risk it is stopped dead and the spend and work to date is lost completely. If this happens, we lose the opportunity to do further work to deliver the much needed hospital. The realistic prospect of it being delivered elsewhere in my view is zero. This is not a good outcome for anyone.

In making the "minded to" position clear, you can be very open about your position, about your view as Minister and the view you carried into the election, and release the report. You could then use the States debate pursuant to the CM's proposition to provide you with a clear public interest response. You could be clear that is what you intend and a proposition could even be worded that way. You will take the mood of the assembly, and then make the decision as planning minister on the application before you. The assembly is purely about public interest and not the planning application.

Whilst as officers we are clear on the public interest case to approve, this approach protects you as Minister as I think it is an impossible ask to assess the public interest without all public elected representatives inputting. After all that is the function of elected members.

It also protects the end aim which ultimately everyone agrees with. If the assembly go against, then fair enough you are doubly clear on both.

Can I ask you to consider this approach, as once we push the button we cannot retrieve.

Kind regards
Andy

Subject: Privileged & Confidential Email - Hospital Planning Application
Date: Thursday, January 10, 2019 13:05 UTC

Dear Chief Minister, Minister for Health and Social Services, Minister for Infrastructure and Chief Executive Officer

The Minister for the Environment, Deputy John Young, has asked that I contact you in confidence on his behalf.

The Minister intends to determine the New General Hospital planning application on Monday (14th Jan) and would like to personally inform you of his decision before this is shared with others and made public. His intention is to make his decision at approximately 10am on Monday and to inform certain key stakeholders in confidence thereafter, ahead of making his decision public at a media briefing at the Town Hall at midday.

Ideally, the Minister would like to meet with you face to face at approximately 10.15am on Monday to personally inform you of his decision, but I know some of you are already engaged at other meetings and venues. Please can you let me know if you can be available for a face to face meeting or how you would like the Minister to contact you on Monday at approx. 10.15am?

For information:

- * Ministers and officers not copied into this email (including other Ministers, senior officers and the media) will be informed on Friday (11th Jan) of the Minister's intention to determine the planning application on Monday.
- * On Monday, the planning application applicant, GHE DG, Chief of Staff and Director of Communications will also be informed of the decision, in confidence, ahead of the media briefing.
- * States members (including other Ministers), will be informed of the decision, in confidence, by email 15mins before the media briefing. (this is only a short period of time before the public announcement, but the Minister wants to minimise the risk of the decision being leaked to the media before the media briefing)
- * In announcing his decisions, the Minister will make publicly available: Ministerial Decision, Inspector's Report, News Release and Minister Statement (which he will read out at the media briefing).

I look forward to hearing from you re your availability of Monday morning.

Kind Regards

Yan

Subject: Privileged & Confidential Email - Hospital Planning Application

Importance: High

Sensitivity: Confidential

Dear Chief Minister, Minister for Health and Social Services, Minister for Infrastructure and Chief Executive Officer

The Minister for the Environment, Deputy John Young, has asked that I contact you in confidence on his behalf.

The Minister intends to determine the New General Hospital planning application on Monday (14th Jan) and would like to personally inform you of his decision before this is shared with others and made public. His intention is to make his decision at approximately 10am on Monday and to inform certain key stakeholders in confidence thereafter, ahead of making his decision public at a media briefing at the Town Hall at midday.

Ideally, the Minister would like to meet with you face to face at approximately 10.15am on Monday to personally inform you of his decision, but I know some of you are already engaged at other meetings and venues. Please can you let me know if you can be available for a face to face meeting or how you would like the Minister to contact you on Monday at approx. 10.15am?

For information:

- * Ministers and officers not copied into this email (including other Ministers, senior officers and the media) will be informed on Friday (11th Jan) of the Minister's intention to determine the planning application on Monday.
- * On Monday, the planning application applicant, GHE DG, Chief of Staff and Director of Communications will also be informed of the decision, in confidence, ahead of the media briefing.
- * States members (including other Ministers), will be informed of the decision, in confidence, by email 15mins before the media briefing. (this is only a short period of time before the public announcement, but the Minister wants to minimise the risk of the decision being leaked to the media before the media briefing)
- * In announcing his decisions, the Minister will make publicly available: Ministerial Decision, Inspector's Report, News Release and Minister Statement (which he will read out at the media briefing).

I look forward to hearing from you re your availability of Monday morning.

Kind Regards

Yan

Hi,

The following has been sent to the five daily media outlets. If they or any other media contact you please could you ask them to call me on

The Minister for the Environment, Deputy John Young, intends to determine the General Hospital planning application on Monday morning (14 Jan) and will publicly announce his decision at a media briefing at the Town Hall at midday on Monday.

Please could you get there beforehand. Deputy Young will be available for interview and you will receive a pack including the decision, his reasoning and other documents at the briefing.

If you have any questions please can you give me a call on .

Many thanks,
Alex

Dear All

Please find attached further updated MD, Minister speech, and News Release, following the meeting the Minister, Andy and I had this afternoon. These are the final documents we will progress with tomorrow, unless you identify any final changes we can make before 10am.

See you in the morning.

Dear both

Depending upon the outcome of tomorrow re Hospital, it may be that I will have to do a statement to the States on Tuesday, and that COM will have to have a meeting to discuss - this would probably be either later on Monday afternoon, or early Tuesday morning.

In the event that does occur, John, I would suggest it would not be appropriate for you to attend, however I think it would be appropriate for Gregory to attend.

Hence, Gregory, can you keep an eye on the e-mails, and keep your diary flexible.

Thanks

John

Hi John

Where/when are you making announcing your decision on the Hospital tomorrow?
Will Mr Staddon's report be released at the same time?

I note that although Mr Staddon said that he was going to come back to all those who presented to ensure that he had got the drift of what was being said correct, he didn't do so and the meetings weren't recorded or transcribed.

Have you checked the diary to book us in for a meeting yet?

many thanks

Subject: Hospital

Dear John,

I email about the hospital. Since your announcement about tomorrow's decision I've lost some sleep...hence this email. I'll keep things as short as I can.

1) I'm grateful that you are making your hospital decision tomorrow. We need to get on as quick as we can. I have consequently withdrawn my oral question for Tuesday.

2) I think we all know (you and I especially) that there is no perfect site for the new hospital. All the options have their flaws...some more than others....but none is ideal (or we would have chosen the site and had the hospital built by now!).

3) I so wish it had never happened, [REDACTED] ; [REDACTED] changed my view of the need for new facilities. We have the most marvellous and committed staff working in conditions and facilities that are desperately in need of replacement. Thousands of people who are currently "in the system" will unfortunately never see the new hospital. However, very many thousand more will get massive benefits if we can complete this project quickly enough. There are thousands of islanders who don't even know they will be needing this hospital in the near future...many young islanders that aren't even born yet will be needing this new hospital. We just cannot afford any more delays. Every day of additional delay is another day lost for someone, somewhere.

I don't know if you have signed your MD yet....maybe you will be doing it tomorrow morning? If tomorrow IS D day then if you could consider what I have written above I would be very grateful.

See you tomorrow,

Kind regards

Steve

Hi
I've just clarified my point below re any outstanding appeal, and can confirm the following.
The applicant has 28 days from today to lodge an appeal to the Royal Court. During that period, the Minister should not attend any public hearing. Therefore, I suggest that any hearing is held after the 10th Feb 2019. We'll know by this date if an appeal has been submitted.
I look forward to hearing from you.

Subject: RE: Hospital decision

Hi
Thanks for your email and for confirming the Future Hospital Review Panel's intention to hold a public hearing with the Minister for the Environment, in relation to his planning application decision. I've also received a copy of the associated news release.

As previously indicated to the Deputy Pamplin, the Minister will endeavour to make himself available to attend, but his attendance at a hearing will need to take account of any appeal that might be made against his decision. He is unlikely to be able to attend a public hearing if there is an appeal outstanding. This is matter we are likely to be able to clarify with the applicant in the coming days.

Do you have any dates in mind?
Regards
Yan

Hi Yannick

I hope you're well.

Just for your information, the Future Hospital Review Panel is probably going to call the Minister in to a public hearing, irrespective of the way his decision on the hospital goes today. The Chairman is likely to make this public.

Kind regards

Dear all

Having considered matters during the day [REDACTED], I will NOT be making a statement tomorrow, so no need for us to meet.

The Hospital will be on the agenda for COM next week, and I will try to catch up informally during the course of tomorrow.

I will send an e-mail to all States Members in due course (and will also circulate to you a press release we have sent to the JEP)

All the best

John

Subject: Monday / Tuesday - Hospital

Dear all

As we are all aware, the planning decision on the Hospital will be released tomorrow.

Depending upon the outcome it may be necessary for me to make a statement to the Assembly on Tuesday, and therefore may be necessary for Ministers to have discussed any outcome in advance.

Could you therefore keep your diaries flexible for either later in the afternoon on Monday, or early Tuesday (probably 8.30 / 8.45 am), and also keep on eye on your e-mails.

Thanks

John
