

Response to FOI request [number redacted]

How many students has Hautlieu accepted at the 14+ entry level in the past ten years, broken down into individual years (2005-2014) and the 11-16 schools which the students moved from (providing student numbers for each school).

Please note that 'No. of students accepted at 14+ entry level' refers to the number of students offered a place in Year 10 by Hautlieu for admission in the September of that year. Not all of these students will have gone on to take up a place at Hautlieu.
