

## Children's Social Care Service Ready to Practice Form

---

A commitment to embedding and meeting the Children's Social Care Service Practice Standards and Timescales for Best Practice is central to protecting children and young people and improving their outcomes. We are committed to ensuring that all staff have read and discussed both documents with their manager at the start of their journey with Children's Social Care Services in Jersey.

We need this form to be signed to evidence that you have had an opportunity to read and discuss them. Thank you for your commitment to high standards and we look forward as a senior leadership team to supporting you to do your very best for the children, young people and families of the Island.

### Social Worker Section

I have read and discussed with my manager the Jersey Social Care Service Practice Standards and Timescales for Best Practice.
