

## **Public Elections**

### **Meetings on School and Youth Service premises**

#### **Guidance Note**

##### **School premises:**

School premises may be available outside of school hours in order to hold meetings with prospective voters. In the interests of absolute impartiality, all the Senatorial candidates must be present at any such meeting, and in the case of Deputies or Connétables, all the candidates for Deputy or Connétable of a particular district must attend.

##### **Youth Service premises:**

Youth premises may also be available outside youth session hours in order to hold meetings with prospective voters.

Young people attending a youth project may wish to invite election candidates to meet them on youth centre premises, but such meetings should be at the instigation of the young persons themselves. If agreed, the invitation would need to be issued to all candidates running for the same post (i.e. candidates for Deputies or Connétable in the relevant parish, or for election as Senator), so that all candidates are treated equally and fairly.

Candidates interested in hiring out premises are invited to contact the school or youth premises directly to determine availability.
