Water Resources (Jersey) Law 2007

Application form to register a water abstraction

Please complete this form to register a water abstraction (i.e. from a borehole, well, etc). This includes if you abstract water from a borehole or well solely for the domestic purposes of a household (regardless of how much water you take) OR if you abstract from a water source for non-domestic use (such as a business) if the quantity does not exceed 15 cubic metres (3300 gallons) in any 24 hour period.

How much water is 15 m³?

1. 15 m³ (or 3300 gallons) is far more water than a household can normally use in one day
2. 15 m³ = 75 full baths or 75 large drums (44 gallon)

There is no charge for registering or using a registered borehole or well.

This form should not be used if a water source is already registered. Please download the amendment/transfer form and contact Environmental Protection for your registration number.

Please go to the following website for full information regarding registering an abstraction or amending an existing registration:

<https://www.gov.je/environment/protectingenvironment/water/pages/managingislandwater.aspx>

1. Application details

1.1	Title	Mr	<input type="checkbox"/>	Mrs	<input type="checkbox"/>	Miss	<input type="checkbox"/>	Ms	<input type="checkbox"/>	Dr	<input type="checkbox"/>	Other	<input type="checkbox"/>
	First name(s)							Surname					
	Address												
	Parish							Post code					
	Landline							Mobile					
	Email												

1.2 If you are applying on behalf of a business or organisation please provide the following information:

Company name	<input type="text"/>	Position in company	<input type="text"/>
--------------	----------------------	---------------------	----------------------

1.3 If you would prefer to nominate someone to deal with application queries and the registration on your behalf, please provide their details and ask them to sign the declaration in section 6.2. (Please note that the contact person should not be a legal representative for matters limited to a property transaction).

Title	Mr		Mrs		Miss		Ms		Dr		Other	
First name(s)							Surname					
Address												
Parish							Post code					
Landline							Mobile					
Email												

2. Your water source(s)

Do you use more than one borehole or well to obtain your water supply?

No - Please complete the rest of this form.

Yes – Please complete this form for one of your sources and a separate application form for each of the other sources that you use.

3. About your water source

3.1 Water source type (tick one box only)

Well Borehole Stream Spring Dam/Pond

3.2 Water source location(s)

Please mark the location(s) using a cross (X) and label (e.g. A, B etc.) for each of your water sources on a map of suitable scale and detail (such as 1:900 scale with building outline or an aerial photo).

Map label you used for this source Local name of this source

Address of the water source if different from 1.1 and/or description of where the source is located:

Parish		Post code	

3.3 Please provide information on the well or borehole depth, diameter and rest water level. Write "unknown" if you do not have these details. (* Please circle the units of measurement used)

Depth feet/metres* Diameter feet/inches/metres/millimetres*

Rest water level (below ground surface) feet/metres*

3.4 Do you have any additional information about your water source? (e.g. geology, water strike depth(s), water analysis etc.)

Yes No If Yes, please list. _____

3.5 Please complete this section if your water source is a well or borehole.
Write "unknown" if you do not have this information.

Borehole drilled by (company name)	
Date drilled	
Pump manufacturer (e.g. Grundfos, SAER etc)	
Pump Model (e.g. SQ3-55)	
Depth of pump installation (feet or metres below ground level)	feet bgl <u>or</u> metres bgl
Pump installed by (company name)	

4. Information about your water supply

4.1 The water from the source I have detailed above is used for: (tick all relevant boxes)

House supply Garden watering Swimming pool
 Business Other (please specify) _____

4.2 Please provide the address of each household supplied with water from the source (including your own if relevant) and the number of people normally resident in each household. Please continue on a separate sheet if necessary.

Household addresses (house name or number, road name and Parish)	Post code	No. people in household
1	JE_ _ _ _	
2	JE_ _ _ _	
3	JE_ _ _ _	
4	JE_ _ _ _	
5	JE_ _ _ _	

4.3 If you ticked 'Business' or 'Other' in section 4.1, please list what the water is used for and give an estimate of the maximum daily quantity for each use.

Use of the water supply (please be as specific as possible)	Estimated maximum quantity (m ³ /day) or (gallons/day)

5. Boreholes and wells that are not in use

Please complete this section only if you have any boreholes or wells that are not currently in use. Please mark and label these sources on the map accompanying the application form and provide any available information below. A separate sheet can be used if providing detail for more than one disused source. Providing information about disused sources will enable us to accurately measure the effect on the water table should a licence for a large abstraction need to be assessed in your area.

Boreholes and wells that are never used do not need to be registered.

5.1 Water source type Well Borehole

5.2 Water source location Please mark and label the position on the map

Map label you used for this source Local name of this source

Address of the disused water source and/or description of where it is located:

<input type="text"/>			
<input type="text"/>			
Parish	<input type="text"/>	Post code	<input type="text"/>

5.3 The water from this source was used for: (*tick as many as required*)

House supply Garden watering Swimming pool
 Business Other (please specify) _____

5.4 Why is the well or borehole not in use? (E.g. pump not installed or not working, supply replaced by mains water, supply inadequate for household requirements, water quality was poor, water contaminated by something, etc.)

<input type="text"/>

5.5 Borehole or well information (if known). Write "unknown" if you do not have this detail.

*Please circle the units of measurement used.

Depth feet/metres* Diameter feet/inches/metres/millimetres*

Water level (*below ground surface*) feet/metres*

Borehole was drilled by (Company name) Date drilled

5.6 Do you have any additional information about this disused source? (e.g. geology, water strike depth(s), water analysis etc.)

Yes No If Yes, please list _____

6. Application declaration and consent

Important information:

Before signing this form please read the following consent information carefully. It explains how the personal data will be used and provides a brief description of your rights under Jersey's Data Protection Law. For further information on how Infrastructure, Housing and Environment handles information please visit <http://www.gov.je/howweuseyourinfo>

Consent of all parties named in this form

I declare that this application is made with my authority and I am aware that it's an offence to submit false or misleading information with an application.

I am aware and agree to the information supplied in this form, together with any other accompanying information, to be used for the purpose of processing and administering my application to register a water abstraction in accordance with the Water Resources (Jersey) Law 2007.

I am aware that there is provision within the Water Resources (Jersey) Law 2007 for the Minister to make available for public inspection information relating to the registration of abstractions. As such data relating to my registration may be shared with the public or any organisation upon request.

I am aware and agree that some of the information supplied in this form, together with any other accompanying information:

- Will be used to advise of a pollution incident in proximity to my own water supply
- May be used to create statistical information about how the Islands' water resources are used and how much water is being abstracted
- Will be put on the farm risk map (borehole/well location only), which is a map layer that is publically accessible through gov.je to inform the agricultural sector of risks to water sources when applying fertilisers and pesticides on their land
- Will be taken into account when assessing a licenced abstraction near your water source
- Will be shared with third parties who undertake legal searches or request generic information on the location of water sources in relation to their own development/site

6.1 Applicant or Agent declaration: (if the applicant is not able to sign, an authorised agent such as an Attorney may complete this section on behalf of the applicant. Please submit a copy of the Agent's Power of Attorney if applicable).

Signature:		Full name of Applicant or Agent:	
Capacity in which you are applying for the registration:*		Date:	
Agent's company name:		Agent contact details	

(*eg: property owner, occupier, director, company secretary, trustee, agent, etc.)

6.2 Nominated contact declaration: (to be signed if section 1.3 completed).

Signature:		Full name of nominated contact:	
Capacity in which you are supporting the applicant:*		Date:	

(*eg: relative, secretary, company operations manager, etc.)
