

Energy Forum

Old Magistrate's Court

4th November

1. **Kick starting the climate emergency** - Discussion around the forward plan for the Climate Emergency /Citizen' Assembly work. Steve Skelton will lead and use the CoM paper as a basis for the discussion covering the items in the paper and cross over work with the bridging Island Plan. Jane Burns will support and explain more about the engagement programme and the expected role of the Energy Forum in the process.
2. **Carbon offset markets** – we have been looking at verifiable carbon offset standards and our technical expert Hilary Jeune will present her work to the forum and facilitate a discussion session
3. **Sustainable Transport Plan** – Rapid Analysis work - We will update the Forum and ask for their views on the scope of the 4 rapid analysis assessments we are currently scoping (Fiona Glover to lead from GoJ)
4. **AOB** – To note that a project is being scoped with Blue Marine and GoJ to assess the potential for carbon sequestration in marine environments.
