

Registered Unemployment September 2010

Statistics Unit: www.gov.je/statistics

Introduction

Data on people registered as unemployed and actively seeking work in Jersey is compiled and administered by the Social Security Department. Since January 2010 the States of Jersey Statistics Unit has independently analysed this anonymised data and publishes a report on a monthly basis.

When interpreting the numbers presented in this report, it should be kept in mind that there is no legal requirement for all unemployed residents of Jersey to register as actively seeking work (ASW) with the Social Security Department. The numbers shown, therefore, constitute an informative set of indicators of the level and characteristics of unemployment in the Island at the specified point in time.

The internationally comparable unemployment rate (as defined by the International Labour Organisation, ILO) is measured on an annual basis by the Jersey Annual Social Survey and also by the Jersey Census.

The numbers of people registered as unemployed and actively seeking work include people who are on the Advance to Work, Advance Plus and Workwise schemes¹.

Summary

On 30th September 2010:

- **the total number² of people registered as unemployed and actively seeking work (ASW) in Jersey was 1,230;**
- the latest monthly ASW total is:
 - 60 lower than that of a month earlier, August 2010;
 - 320 higher than that of a year earlier, September 2009;
- a fall in the number of 18-24 year olds registered as unemployed and ASW accounted for 50 of the total net monthly decrease of 60;
- a quarter of the ASW total (310 people) were teenagers aged 16-19 years; 120 teenagers were on the Advance to Work Scheme¹;
- **On a seasonally adjusted basis, the total number of people registered as ASW was at a similar level as in the previous two months.**

¹ The Advance to Work scheme provides 16 to 19 year olds who have left school or college with a relevant work placement and training. Advance Plus provides over 19 year olds with a relevant work placement and training. Workwise comprises a team of advisors in the Social Security Department who help people with special employment needs, or particular employment barriers, to prepare for and seek suitable work.

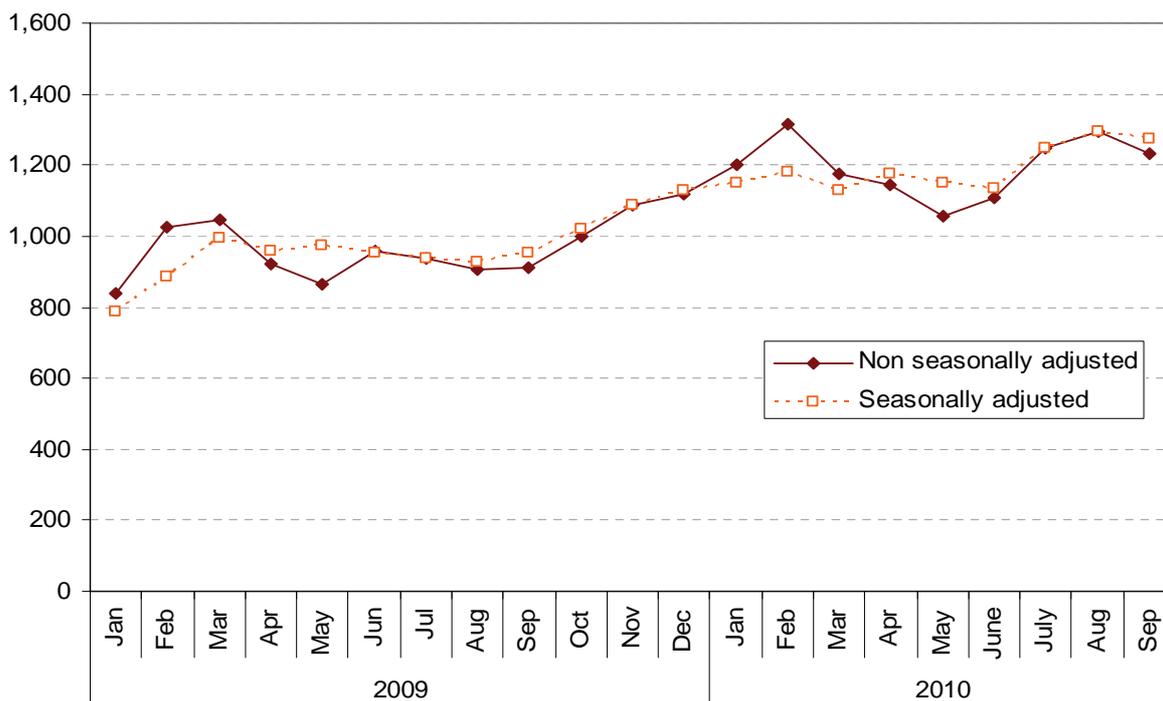

² Numbers presented in this report are rounded to the nearest 10.

Registered Unemployed people Actively Seeking Work

On 30th September 2010, 1,230 people were registered with the Social Security Department as unemployed and actively seeking work (ASW). Two-thirds (67%) of people registered as ASW on this date (820 individuals) were receiving Income Support³.

Figure 1 shows the total number of people registered as ASW at the end of each month since January 2009 (monthly data are also shown in Annex Table A1). From May 2010 to August 2010 there was an ongoing monthly increase in the number of people registered as ASW. September 2010 saw the first monthly decrease for five months, total ASW being 60 lower than in August 2010, but was still some 320 higher than a year earlier, in September 2009.

Figure 1– Total number of individuals registered as ASW, Jan 2009 – Sep 2010

The seasonally adjusted series of the total registered as ASW, in which seasonal and calendar effects are removed, is also shown on Figure 1. From this perspective, the number of people registered as ASW in Jersey in September 2010 was at a similar level to the previous two months but more than 100 higher than the relatively stable level seen throughout the first six months of 2010.

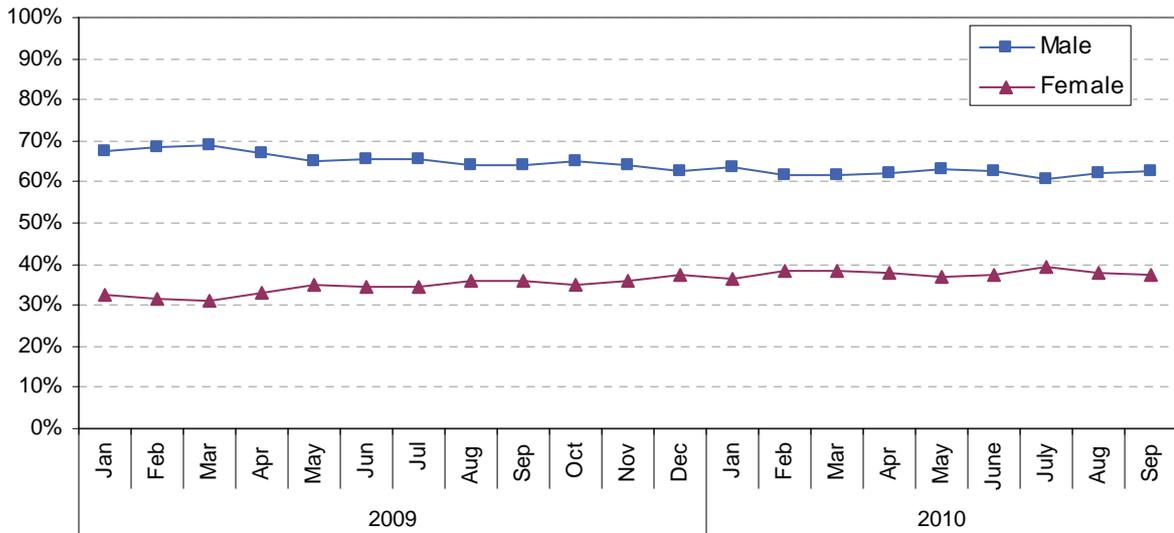

Registered ASW by gender

More than three-fifths (63%) of people registered as ASW on 30th September 2010 were men (770 individuals).

As Figure 2 shows, the proportion of the total number of ASW who were women increased during 2009 and early 2010, from 32% in January 2009 (representing 270 women) to 39% in February 2010 (510 women). During the 2010 this proportion has remained at between 37-39%, with 460 women registered in September 2010.

³ The total number of adults receiving Income Support without work will be greater than this figure, which represents the number registered on 30th September 2010 as ASW.

Registered ASW by age

On 30th September 2010 more than two-fifths (42%) of all people registered as ASW in Jersey were under the age of 25, with a quarter of the total (25%) being teenagers aged 16-19 years.

Figure 3 shows the numbers registered as ASW by age of individuals for the last four months, from June to September 2010.

Figure 3 – Individuals registered as ASW by age, June – Sep 2010

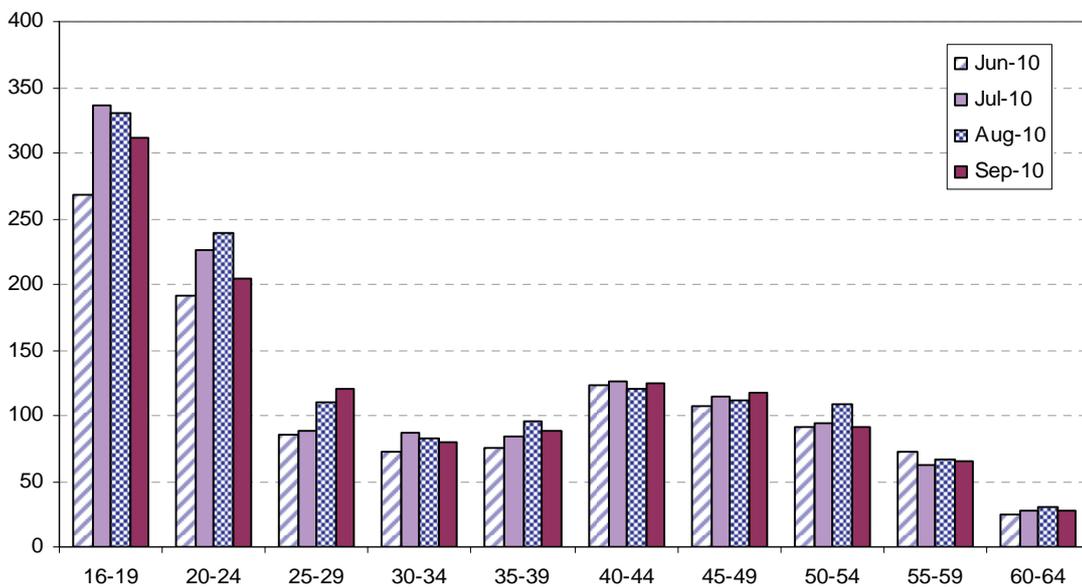

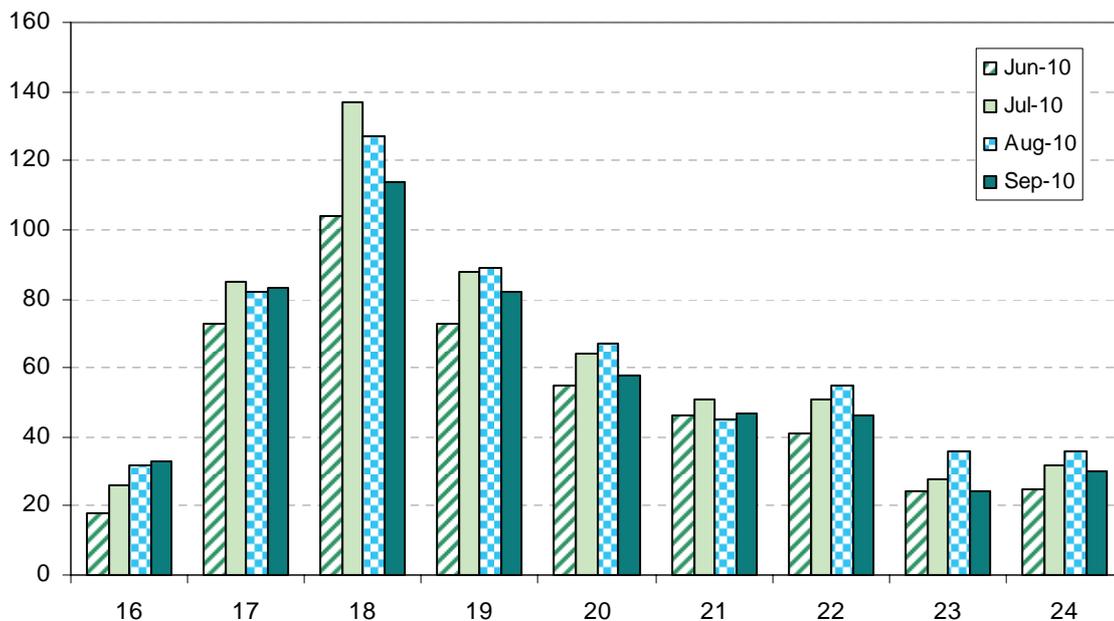

Figure 4 shows the age distribution for people under 25 years of age who were registered as ASW in June to September 2010. The reduction in the number of 18-24 year olds registered as ASW in September 2010 accounted for 50 of the most recent total net monthly fall of 60.

Of the 310 teenagers who were registered as ASW at the end of September 2010, 120 were on the Advance to Work scheme.

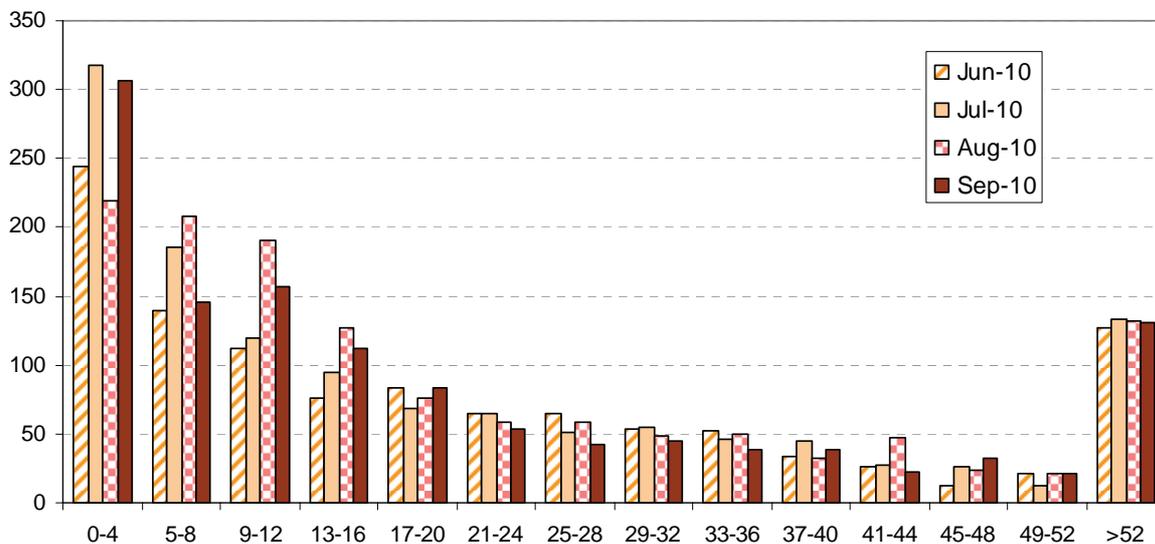

Figure 4 – Individuals under the age of 25 registered as ASW, June - September 2010

Duration as ASW

Half of all people registered as ASW on 30th September 2010 had been registered for fewer than 13 weeks (approximately 3 months). Approximately 10% of the total (130 individuals) had been registered as ASW for more than a year - see Figure 5.

Figure 5 – Individuals registered as ASW by length of period registered (weeks), June - September 2010

About 90 more people had registered in the latest 4 weeks compared to the corresponding number as at 31st August 2010.

Occupation and Industry

Individuals working in some occupations and industries of the economy, notably in the Finance sector, often seek employment through private agencies instead of registering with the Social Security Department. Such occupations and industries will, therefore, be under-represented in the ASW numbers. Nevertheless, the change over time for all recorded occupations and industries will be informative.

Occupation

Table 1 – Recorded occupation of last employment of individuals registered as ASW

Occupation ⁴	June 2010	July 2010	August 2010	September 2010
Managers and Senior Officials	6%	5%	5%	7%
Professional	2%	3%	3%	2%
