## **Declaration notes:**

I understand that it is an offence to transport any animals requiring an Approved Carrier Authorisation before an Authorisation is issued, unless advised in writing by the department.

I will ensure that all pets travelling to Jersey will be compliant with the animal health requirements of the Pet Travel Scheme (Jersey) Regulations (2011) ("The Regulations"). Or, if the animal is non-compliant, it will only be brought into Jersey with the prior approval in writing of the Minister granted under Regulation 3(3) of the Regulations.

I will check for any illegal transportation of pets and accept that if animals do not comply with the requirements of the Regulations or have written permission by the Minister for their movement, that they must be refused travel. Or, in the event of identifying noncompliance after take-off the correct procedure must be adhered to in accordance with the agreement in the RMOP.

I understand that the captain is required to see proof from a veterinarian that the pet is fit to travel.

I will only transport pets that have been approved for travel under the service level agreement recorded in section 5.

**I am aware that Infrastructure, Housing and Environment must be notified of the flight's arrival 2 hours prior to scheduled arrival via telephone call to the duty officer on \*\*44 (0)1534 441617 and informed of any changes to the scheduled arrival time as soon as reasonably practicable. A landing form must also be sent by email immediately after the check on arrival.**

I understand that where a pet is being transported in a container, the container must comply with the specific container requirement(s) as detailed in the IATA Live Animal Regulations.

I have sufficient levels of qualified staff, equipment and operational procedures in place to ensure the safe transport of the animals and that only persons who have demonstrated their competence in accordance with the regulations will be responsible for the transportation of the animals.
