

# 1. RUE DE MAUPTUIS BENDS

## Improvements at the Maupertuis:

- Road closed to through traffic, access to premises only
- Minimises the amount of traffic and helps to reduce speed
- Allows unrestricted cyclist and pedestrians access
- Reduces conflict between the traffic and pedestrians/ cyclists particularly at sharp bends

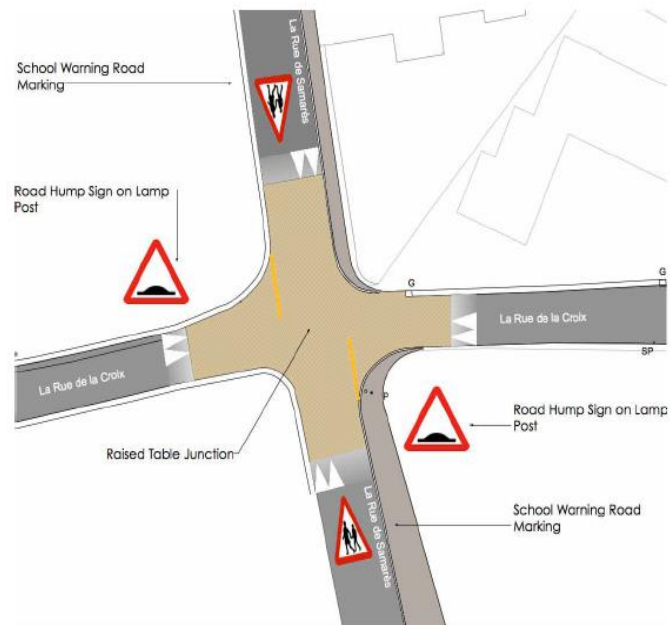

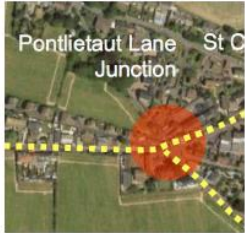

## 2. RUE DE SAMARES JUNCTION

### Improvements at the Maupertuis Lane junction:

- Raised table - emphasise the junction and raises drivers awareness, helps to reduce speed

### 3. RUE DU PONTLIETAUT - RAISED TABLE

#### Improvements at the Rue du Pontlietaut junction:

- Raised table - helps to reduce speed and make crossing the road easier
- Narrowed road - directs and slows down traffic flow, it is easier to cross
- Built out pavement directs pedestrians flow and helps to cross the road
- Reduces the conflict between the traffic and pedestrians/cyclists
