Proposed development at Plemont

From: Sonia Hamon [REDACTED]

Dear Planning Minister

P/2011/1673

We think that the proposed development at Plemont is quite awful and completely unsuited to this corner of our Island, which should be left free of buildings. The Holiday Camp was bad enough but surely here is an opportunity to save this area and leave our children and our childrens' children a heritage that they can be proud of.

How can this development even be considered after the public outrage about Portelet, which cost Senator Cohen his seat in the States? Are we to have another hideous blot on the landscape, clearly visible from land and sea? What is planning about if not protecting the few beautiful rural /seascapes that are left? Can't the owner be persuaded that if he withdraws his plans he will be acknowledged as a forward-thinking man, rather than a money-mad developer? Wouldn't HE like to do something to improve the Island which he has made his home? Our Island has been hideously overdeveloped over the last 15/20 years. ENOUGH IS ENOUGH!!

Yours sincerely,

Francis and Sonia Hamon
