

Introduction

Data on people registered as unemployed and actively seeking work in Jersey is compiled and administered by the Social Security Department. The Statistics Unit independently analyses this anonymised data and publishes a monthly report.

When interpreting the numbers presented in this report, it should be kept in mind that there is no legal requirement for all unemployed residents of Jersey to register as actively seeking work (ASW) with the Social Security Department. The numbers shown, therefore, constitute an informative set of indicators of the level and characteristics of unemployment in the Island at the specified point in time.

Furthermore, when placing the figures contained in this report in a historical context, it should be recognised that there have been significant changes in the criteria relating to registered unemployment in Jersey in recent years. In particular, the introduction of Income Support in 2008 has led to a much higher proportion of individuals actively seeking work being included in the registered unemployment figures.

The internationally comparable unemployment rate (as defined by the International Labour Organisation, ILO) is measured on an annual basis by the Jersey Annual Social Survey. In the summer of 2010 the ILO unemployment rate for Jersey was measured to be 3.0%. This rate corresponds to 1,700 people being unemployed at that point in time.

The numbers of people registered as unemployed and actively seeking work include people who are on the Advance to Work, Advance Plus and Workwise schemes (see Note 1).

Summary

On 30th April 2011:

- **the total number¹ of people registered as unemployed and actively seeking work (ASW) in Jersey was 1,350;**
- **the latest monthly ASW total is:**
 - 40 higher than that of a month earlier, March 2011;
 - 210 higher than that of a year earlier, April 2010;
- **on a seasonally adjusted basis²,** the ASW total is 90 higher than a month earlier, in March 2011, and 70 higher than the monthly average seen in the first quarter of 2011;
- **long-term unemployment** (registered for more than 52 weeks) has increased by 70 over the last twelve months and now accounts for one in seven of the ASW total;
- **290 teenagers aged 16-19 years** were registered as ASW, some 30 fewer than the previous month; 140 teenagers were on the Advance to Work scheme.

¹ Numbers presented in this report are rounded to the nearest 10.

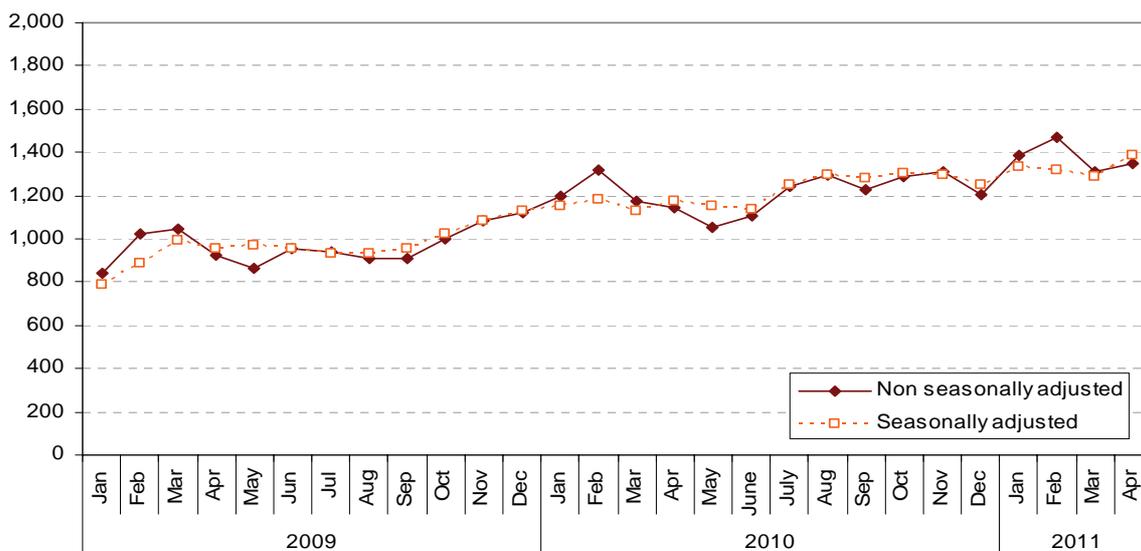

² Seasonal adjustment is a statistical technique which enables examination of the underlying behaviour in a series of data by removing variations associated with the time of year, e.g. Christmas, academic year, Easter.

Registered Unemployed people Actively Seeking Work

On 30 April 2011, 1,350 people were registered with the Social Security Department as unemployed and actively seeking work (ASW). Almost three-quarters (73%) of people registered as ASW on this date (990 individuals) were receiving Income Support³.

Figure 1 shows the total number of people registered as ASW at the end of each month since January 2009 (monthly data are also shown in Annex Table A1). The total number registered in April 2011 was 40 higher than in March 2011 and 210 higher than a year earlier, in April 2010.

Figure 1– Total number of individuals registered as ASW, Jan 2009 – Apr 2011

The seasonally adjusted series of the total registered as ASW, in which seasonal and calendar effects are removed, is also shown on Figure 1. From this perspective, the total number of people registered as ASW in Jersey in April 2011 is:

- 90 higher than in the previous month, March 2011;
- about 70 higher than the monthly average recorded in the first quarter of 2011.

Registered ASW by age

On 30 April 2011, almost two-fifths (37%) of all people registered as ASW in Jersey were under the age of 25, with about a fifth (21%) of the total being teenagers aged 16-19 years.

Figure 2 shows the numbers registered as ASW by age of individuals for the last four months, from January 2011 to April 2011; most age categories saw increases in the numbers registered between March and April 2011. In contrast, the 16-19 age group recorded a monthly decrease of 30.

³ The total number of adults receiving Income Support without work will be greater than this figure, which represents the number registered on 30 April 2011 as ASW.

Figure 2 – Individuals registered as ASW by age, Jan 2011 – Apr 2011

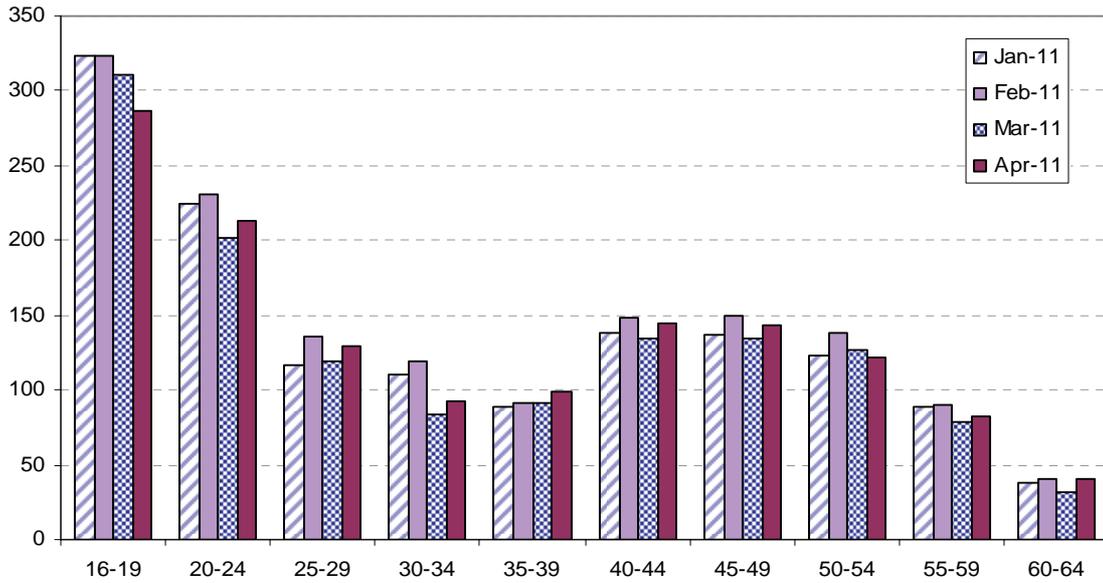

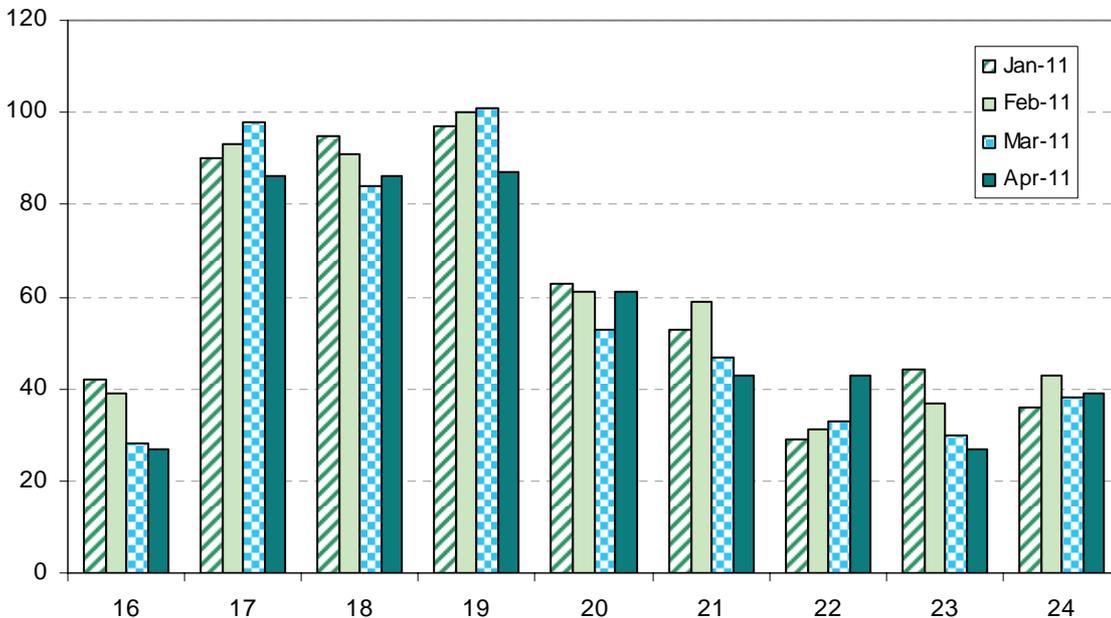

Figure 3 shows the age distribution for people under 25 years of age who were registered as ASW in the latest four months, from January 2011 to April 2011. As in previous recent months, the greatest numbers of people registered as ASW at the end of April 2011 were for ages 17-19 years.

Of the 290 teenagers who were registered as ASW at the end of April 2011, 140 were on the Advance to Work scheme.

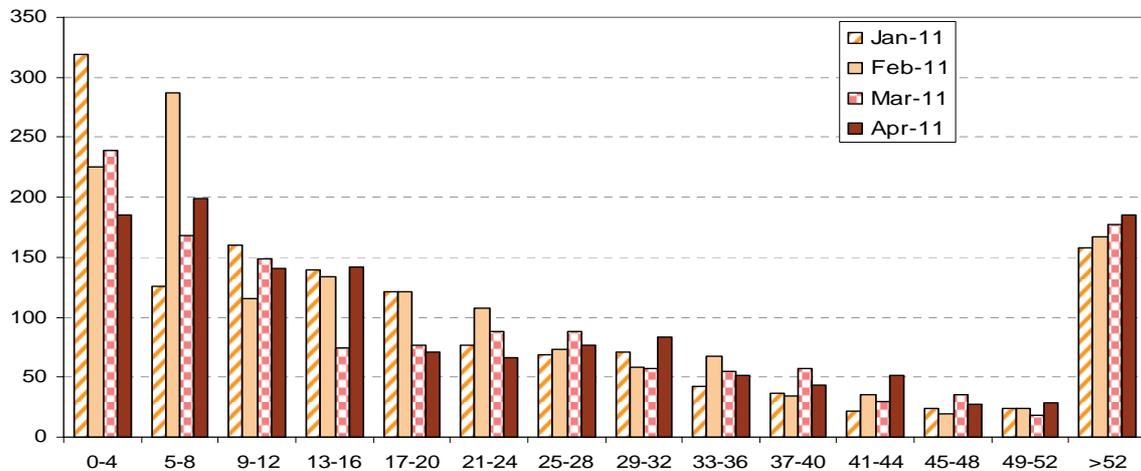

Figure 3 – Individuals under the age of 25 registered as ASW, Jan 2011 – Apr 2011

Duration as ASW

Almost two-fifths (39%) of all people registered as ASW on 30th April 2011 had been registered for fewer than 13 weeks (approximately 3 months). Approximately 14% of the total (190 individuals) had been registered as ASW for more than a year - see Figure 4.

Figure 4 – Registered ASW by length of period registered (weeks), Jan 2011 - Apr 2011

190 people had registered as ASW in the latest four week period. This number is 50 fewer than the corresponding number for the four weeks up to 31 March.

The number of people in long-term unemployment (defined as being registered as unemployed and ASW for more than 52 weeks) has increased by 70 over the last twelve months, from 120 in April 2010 to 190 in April 2011. The long-term unemployed now account for about one in seven of the ASW total.

Occupation and Industry

Individuals working in some occupations and industries of the economy, notably in the Finance sector, often seek employment through private agencies instead of registering with the Social Security Department. Such occupations and industries will, therefore, be under-represented in the ASW numbers. Nevertheless, the change over time for all recorded occupations and industries will be informative.

The last industry of employment was recorded for almost nine out of ten people registered as ASW in March 2011:

- over half (54%) of the latest monthly increase was from people employed in 'Retail and Wholesale, Motor repairs and sales';
- approximately one fifth was from people whose last employment was in 'Banking, Miscellaneous Insurance, Finance and Business' and in 'Construction and allied trades, Mining and quarrying';

From an occupation⁴ perspective:

- almost a third of individuals (30%) registered as ASW on 30 April worked in 'Elementary Occupations';
- a fifth of individuals registered worked in 'Sales and Customer Service Occupations'.

*Statistics Unit
25 May 2011*

⁴ Standard Occupational Classification SOC2000; see Note 2.

Notes

- 1.** The Advance to Work scheme provides 16 to 19 year olds who have left school or college with a relevant work placement and training. Advance Plus provides over 19 year olds with a relevant work placement and training.

Workwise comprises of a team of advisors in the Social Security Department who help people with special employment needs, or having particular employment barriers, to prepare for and seek suitable work. Since October 2010, a system enabling more complete counting of individuals on Workwise placements has been implemented.

2. Standard Occupational Classification (SOC 2000):

Example occupations within each category:

Managers and Senior Officials

managers and senior offices in public and private sectors.

Professional

science professionals, civil engineers, pharmacists, veterinarians, teachers, lawyers, judges, chartered accountants, architects, social workers, librarians, clergy.

Associate Professional and Technical

science technicians, engineering technicians, nurses, dental technicians, physiotherapists, youth workers, police officers (sergeant and below), artists, actors, graphic designers, journalists, sport coaches, air traffic controllers.

Administrative and Secretarial

office clerks, secretaries, personal assistants, receptionists, book-keepers, telephonists.

Skilled Trades

farmers, gardeners, fishermen, mechanics, electricians, telecommunication engineer, computer engineer, bricklayers, plumbers, carpenters, plasterers, tailors, printers, butchers, bakers, chefs.

Personal Service

nursing auxiliaries and assistants, care assistants, home carers, animal care, leisure and travel assistants, travel agents, hairdressers, nursery nurses, childminders, education assistants, housekeepers.

Sales and Customer Service

sales assistants, retail cashiers, call centre agents, check out operators, customer care occupations, telephone sales person.

Process, Plant and Machine Operatives

plant and machine operatives, fork-lift truck drivers, taxi cab drivers, chauffeurs, bus drivers, van drivers, construction operatives.

Elementary Occupations

farm workers, labourer, packers, postal workers, messengers, couriers, hotel porters, kitchen and catering assistants, waiters, bar staff, domestic cleaners, security guards.
