

Registered Unemployment November 2011

Statistics Unit: www.gov.je/statistics

Summary

On 30 November 2011:

- on a **seasonally adjusted** basis¹, the total number of people registered as unemployed and actively seeking work (ASW) in Jersey was²:
 - marginally higher than a month earlier, in October 2011;
 - 90 higher than the average for the preceding three months;
 - the highest level recorded to date³;
- the non-seasonally adjusted ASW total was 1,530; this latest monthly total is:
 - 30 higher than a month earlier, in October 2011;
 - 220 higher than that of a year earlier, in November 2010;
 - 440 higher than that of two years earlier, in November 2009;
- **long-term unemployment** (registered for more than 52 weeks) has almost doubled during the last twelve months and now accounts for more than one in six of total ASW;
- 260 **teenagers aged 16-19 years** were registered as ASW, the lowest number in this age category for 18 months; of these, 120 were on the Advance to Work scheme.

Introduction

Data on people registered as unemployed and actively seeking work in Jersey is compiled and administered by the Social Security Department. The Statistics Unit independently analyses this anonymised data and publishes a monthly report.

When interpreting the numbers presented in this report, it should be kept in mind that there is no legal requirement for all unemployed residents of Jersey to register as actively seeking work (ASW) with the Social Security Department. The numbers shown, therefore, constitute an informative set of indicators of the level and characteristics of unemployment in the Island at the specified point in time.

The internationally comparable unemployment rate (as defined by the International Labour Organisation, ILO) is measured for Jersey through the Annual Social Survey or the Census. The provisional ILO unemployment rate on 27 March 2011, measured by the 2011 Census, was 4.7%; this rate corresponds to 2,570 people being unemployed at that point in time.

The numbers of people registered as unemployed and actively seeking work include people who are on the Advance to Work, Advance Plus and Workwise schemes (see Note 1).

¹ Seasonal adjustment is a statistical technique which enables examination of the underlying behaviour in a series of data by removing variations associated with the time of year, e.g. Christmas, Easter, academic year.

² ASW numbers presented in this report are rounded independently to the nearest 10.

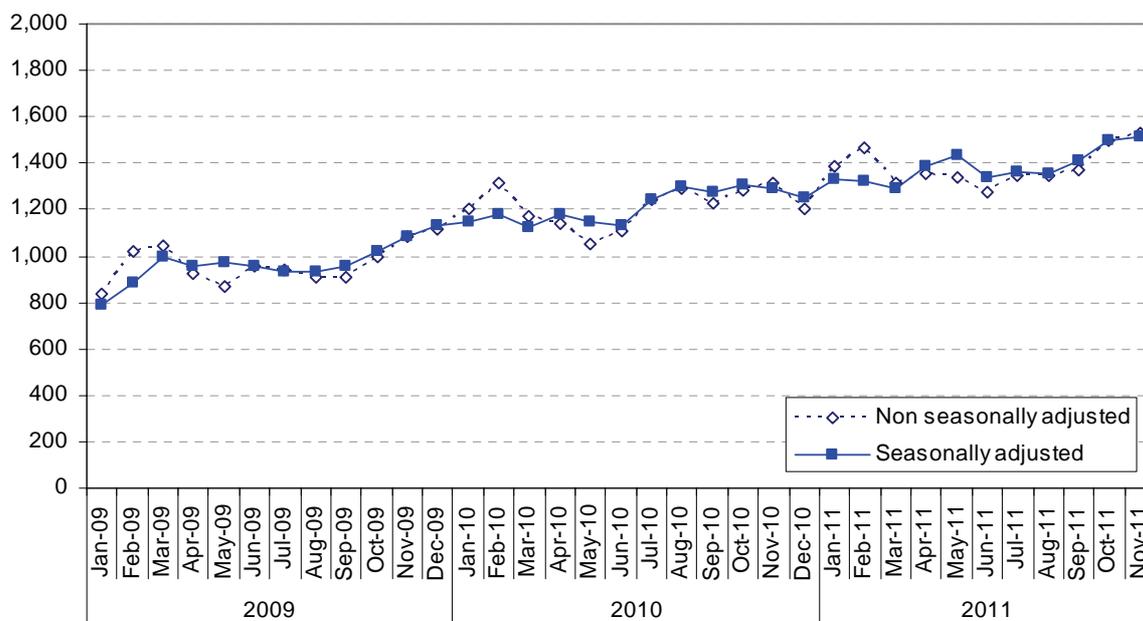

³ When placing the figures contained in this report in a historical context, it should be recognised that there have been significant changes in the criteria relating to registered unemployment in Jersey in recent years. In particular, the introduction of Income Support in 2008 has led to a higher proportion of individuals who were actively seeking work being included in the registered unemployment figures.

Registered Unemployed people Actively Seeking Work

On 30 November 2011, 1,530 people were registered with the Social Security Department as unemployed and actively seeking work (ASW). Seven out of ten people (70%) registered as ASW on this date (1,070 individuals) were receiving Income Support⁴.

Figure 1 shows the total number of people registered as ASW at the end of each month since January 2009 (monthly data are shown in Appendix Table A1). The total number registered in November 2011 was: 30 higher than a month earlier; 220 higher than a year earlier, in November 2010, and 440 higher than two years earlier, in November 2009.

Figure 1 – Total number of individuals registered as ASW, Jan 2009 – Nov 2011

The seasonally adjusted series of the total registered as ASW, in which seasonal and calendar effects are removed, is also shown on Figure 1. From this perspective, the total number of people registered as ASW in Jersey in November 2011 was:

- marginally higher (up by 10) than in the previous month, October 2011;
- 90 higher than the mean for the preceding three-month period, August - October 2011;
- the highest level recorded to date.

Registered ASW by age

On 30 November 2011, almost a third (31%) of all people registered as ASW were under the age of 25, with around a sixth (17%) of the total being teenagers aged 16-19 years.

Figure 2 shows the numbers registered as ASW by age of individuals for the last five months, from July 2011 to November 2011.

Most age categories saw small increases in the number of people registered as ASW in November 2011 compared with the previous month. The exception was 16-19 year olds, which saw a decrease of 30 in the latest month. The number of ASW registered teenagers was the lowest recorded by this age group for 18 months, since May 2010⁵.

⁴ The total number of adults receiving Income Support and not working will be greater than this figure, which represents the number of people receiving Income Support who were registered as ASW on 30 November 2011.

⁵ It should be acknowledged that a change to the Income Support criteria in September 2011 meant that individuals aged 16-18 no longer receive the adult component of Income Support in their own right and as a result are not required to register as ASW.

Figure 2 – Individuals registered as ASW by age, Jul 2011 – Nov 2011

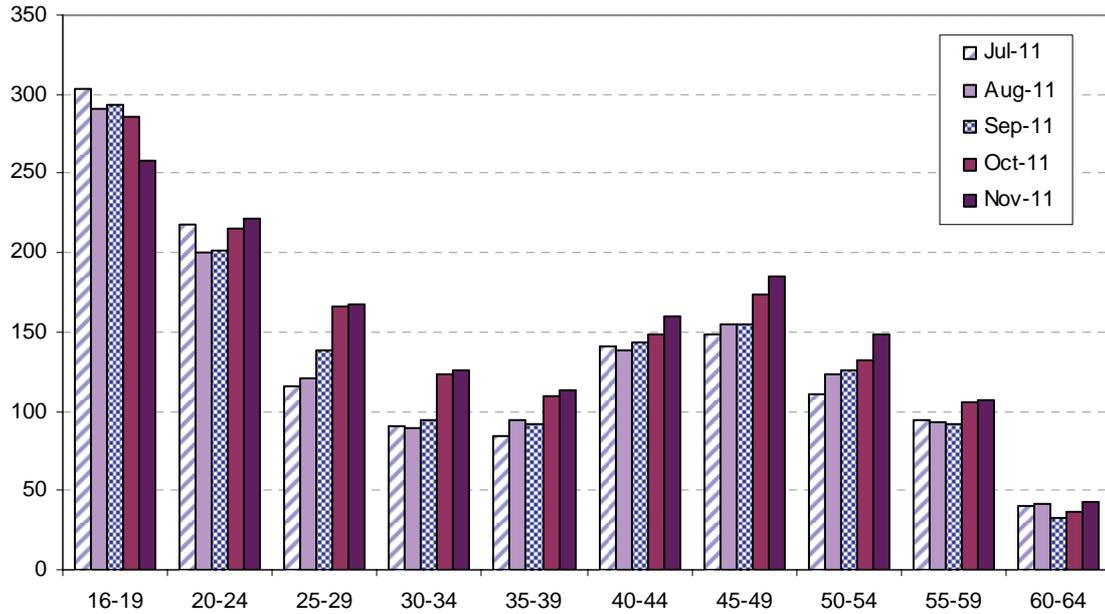

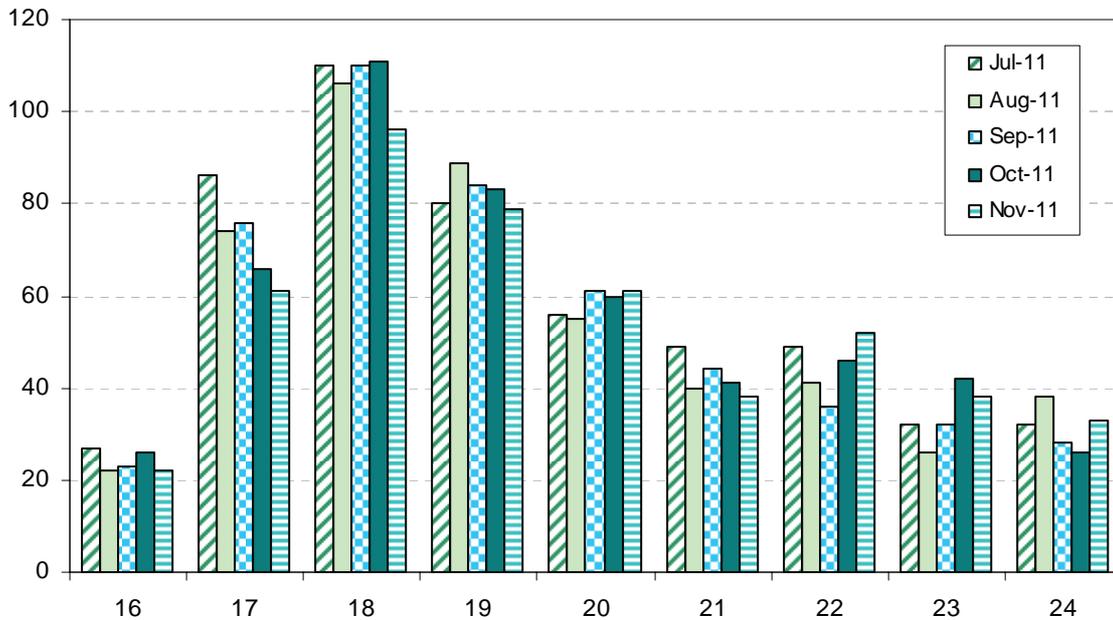

Figure 3 shows the age distribution for people under 25 years of age who were registered as ASW in the latest five months, from July 2011 to November 2011. As in previous recent months, the greatest numbers of people registered as ASW at the end of November 2011 were for ages 18-19 years.

Of the 260 teenagers (aged 16-19 years) who were registered as ASW at the end of November 2011, 120 were on the Advance to Work scheme.

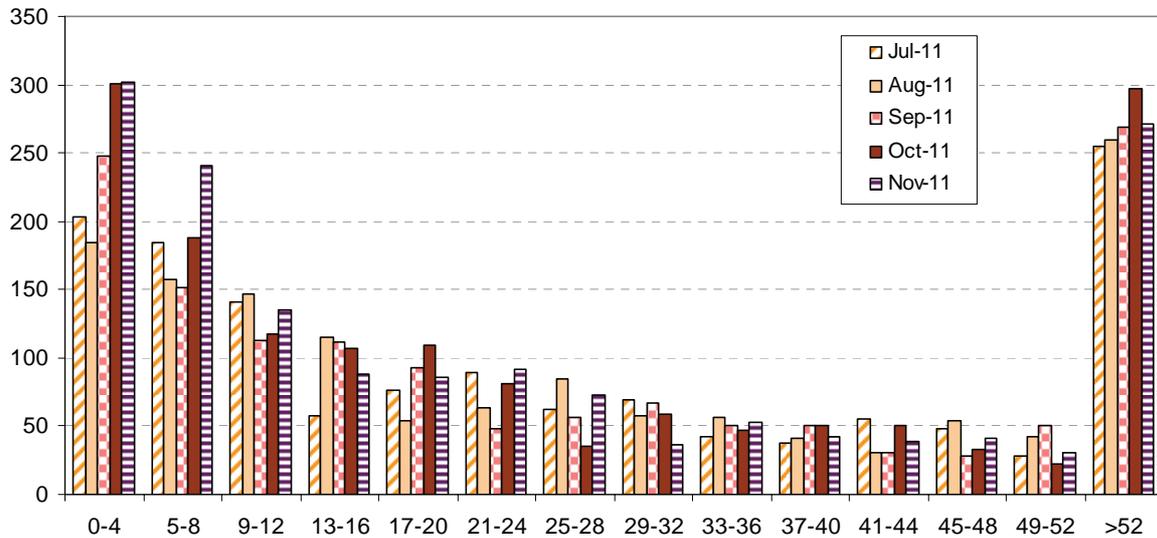

Figure 3 – Individuals under the age of 25 registered as ASW, Jul 2011 – Nov 2011

Duration as ASW

Over two-fifths (44%) of all people registered as ASW on 30 November 2011 had been registered for fewer than 13 weeks (approximately three months)⁶ – see Figure 4.

Figure 4 – Registered ASW by length of period registered (weeks), Jul 2011 – Nov 2011

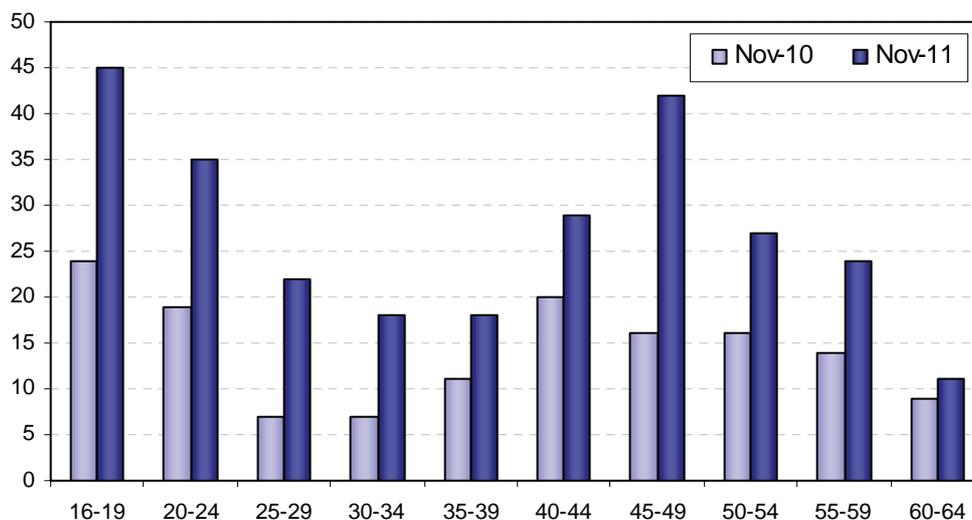

Some 300 people had registered as ASW in the latest four week period, a similar number to the corresponding four week period up to 31 October 2011.

Long-term unemployment

On 30 November 2011, more than one in six (18%) of the ASW total, corresponding to 270 individuals, had been registered as ASW for over a year. The number of people in long-term unemployment in Jersey (registered as unemployed and ASW for more than 52 weeks) has almost doubled during the last twelve months, from 140 in November 2010 to 270 in November 2011.

Figure 5 shows the age distribution of the long-term unemployed in November 2011 and twelve months earlier, in November 2010.

Figure 5 – Long-term unemployed by age, November 2010 and November 2011

⁶ In May 2011 a change in the algorithm used to calculate the duration of unemployment was introduced: the duration of unemployment henceforth includes all periods of unemployment with less than a 4 week gap.

People under 25 years of age accounted for almost a third of the total number of long-term unemployed in both November 2010 and November 2011; people aged 40 or above accounted for about half of the total number of long-term unemployed at these points in time.

The number of people aged under 25 in long-term unemployment increased by 40 during the twelve months to November 2011; the number of people aged 40 or above in long-term unemployment increased by 60 during the same period.

Occupation and Industry

Individuals working in some occupations and industries of the economy, notably in the Finance sector, often seek employment through private agencies instead of registering with the Social Security Department. Such occupations and industries will, therefore, be under-represented in the ASW numbers. Nevertheless, the change over time for all recorded occupations and industries will be informative.

The last industry of employment was recorded for almost nine out of ten people registered as ASW in November 2011:

- over a sixth (18%) of those registered were previously employed in 'Miscellaneous professional and domestic services';
- about one in six were previously employed in 'Construction and allied trades' (17%) and in 'Retail and Wholesale, Motor repairs and sales' (17%).

From an occupation⁷ perspective:

- A third (33%) of individuals registered as ASW on 30 November 2011 had previously worked in 'Elementary Occupations';
- Similar proportions had worked in 'Sales and Customer Service Occupations' (14%) and 'Administrative and Secretarial Occupations' (14%).

⁷ Standard Occupational Classification SOC2000; see Note 2.

Notes

- 1.** The Advance to Work scheme provides 16 to 19 year olds who have left school or college with a relevant work placement and training. Advance Plus provides over 19 year olds with a relevant work placement and training.

Workwise comprises of a team of advisors in the Social Security Department who help people with special employment needs, or having particular employment barriers, to prepare for and seek suitable work. Since October 2010, a system enabling more complete counting of individuals on Workwise placements has been implemented.

2. Standard Occupational Classification (SOC 2000):

Example occupations within each category:

Managers and Senior Officials

managers and senior offices in public and private sectors.

Professional

science professionals, civil engineers, pharmacists, veterinarians, teachers, lawyers, judges, chartered accountants, architects, social workers, librarians, clergy.

Associate Professional and Technical

science technicians, engineering technicians, nurses, dental technicians, physiotherapists, youth workers, police officers (sergeant and below), artists, actors, graphic designers, journalists, sport coaches, air traffic controllers.

Administrative and Secretarial

office clerks, secretaries, personal assistants, receptionists, book-keepers, telephonists.

Skilled Trades

farmers, gardeners, fishermen, mechanics, electricians, telecommunication engineer, computer engineer, bricklayers, plumbers, carpenters, plasterers, tailors, printers, butchers, bakers, chefs.

Personal Service

nursing auxiliaries and assistants, care assistants, home carers, animal care, leisure and travel assistants, travel agents, hairdressers, nursery nurses, childminders, education assistants, housekeepers.

Sales and Customer Service

sales assistants, retail cashiers, call centre agents, check out operators, customer care occupations, telephone sales person.

Process, Plant and Machine Operatives

plant and machine operatives, fork-lift truck drivers, taxi cab drivers, chauffeurs, bus drivers, van drivers, construction operatives.

Elementary Occupations

farm workers, labourer, packers, postal workers, messengers, couriers, hotel porters, kitchen and catering assistants, waiters, bar staff, domestic cleaners, security guards.

Appendix

Table A1: Number of individuals registered as ASW, Jan 2009 – Nov 2011⁸

| | | Male | Female | Total | Seasonally adjusted total |
|-------------|------------|------|--------|-------|---------------------------|
| 2009 | Jan | 570 | 270 | 840 | 790 |
| | Feb | 700 | 320 | 1,020 | 890 |
| | Mar | 720 | 330 | 1,050 | 1,000 |
| | Apr | 620 | 300 | 920 | 960 |
| | May | 560 | 300 | 870 | 970 |
| | Jun | 630 | 330 | 960 | 950 |
| | Jul | 620 | 320 | 940 | 940 |
| | Aug | 580 | 320 | 910 | 930 |
| | Sep | 580 | 330 | 910 | 960 |
| | Oct | 650 | 350 | 1,000 | 1,020 |
| | Nov | 700 | 390 | 1,090 | 1,090 |
| | Dec | 700 | 420 | 1,120 | 1,130 |
