Patient Information

Speech and Language Therapy for the Adult Learning Disability Service

This leaflet is for adults with a Learning Disability, their families and carers. It explains how the service can offer advice and support and how to make contact.

Adult Speech and Language Therapy
Eva Wilson Centre, Overdale

Speech and Language Therapy Service for Adults with a Learning Disability

Speech and Language Therapists help you by:

- improving your communication
- making eating and drinking safer

How we do this

We may work with you on alternative communication (for example signing, symbols, electronic aids).

Sometimes we work with people in your environment to improve the support for your communication.

Modifying fluids or food and your environment or equipment can help to make eating and drinking safer for you.

We work together with other professionals from the Learning Disability Service (for example Occupational Therapist, Physiotherapists, Positive Behaviour Support Team).

After assessment and advice from our service

For Speech and Language Therapy to be most helpful to you, it is important that you, and the people supporting you, consistently follow the advice and strategies given.

How to arrange to see a Speech and Language Therapist

You, those working with you or your family can telephone our department on 443054.

You can complete the form on the back of this leaflet and return it to the address noted on the form.

You can attend our drop in clinic on the first Monday of the month between 2-4pm at the Eva Wilson Centre (closed on bank holidays).

You can ask your GP, or any other professional working with you, to refer you to our team.

What happens when we receive a referral

We contact the person who made the referral for more information. We arrange a visit or may suggest you attend the drop in clinic.

We may also contact other professionals to gather more information or plan a joint visit with other staff.
