

PFAS in Jersey

Dr Steve Hajioff

Chair of the PFAS Scientific Advisory Panel

PFAS Panel

Independent Chair - Dr Steve Hajioff

PFAS and health - Dr Tony Fletcher

PFAS and environment - Prof. Ian Cousins

Purpose of the panel

To coordinate and provide expert advice on per- and polyfluoroalkyl substances (PFAS) issues to enable an effective and evidenced based approach to decision-making, enabling a sound and informed response to PFAS matters on the Island.

Panel reports

1. Review of therapeutic phlebotomy (i.e. having blood taken to reduce PFAS levels)
2. Assessment of the impact of PFAS exposure on health
3. **Clinical interventions, biomonitoring, PFAS blood testing and re-testing**
4. Environmental management
5. An update on the reports reviewing any additional evidence available

Approach

- Being led by evidence
- Working through consensus
- Involving experts by experience and subject matter experts
- Public involvement throughout the process
- Default to meetings being in public
- Ability to work in private where there is a need for confidentiality
- Regular engagement with key stakeholders in addition to panel meetings
- No surprises

The report development process

1. Panel agree scope of report
- 2. Public engagement at the start of the report**
3. Opportunity for Islanders to comment and ask questions
4. Review of the global evidence available
5. Subject matter experts and experts by experience invited to give evidence
6. Review of evidence
7. Report development
8. Draft report shared with Public Health & Government
9. Draft report shared with the Islanders
10. Final report submitted to Government to consider the findings
11. Once agreed with Government, report launch to Islanders with a public meeting
