

Animal Health (Bird Diseases) (Jersey) Order 2017 (the ‘Order’)

Application to Register as a Poultry Keeper

The Order is made under the Animal Health (Jersey) Law 2016. Article 4 requires that a keeper of 30 or more poultry must register and keep certain records. However you can voluntarily register as a keeper if you keep less than 30 birds.

A keeper of 30 or more poultry must keep a record of the number of poultry held; the number of poultry entering and leaving the premises; the name and address of the person from whom the poultry were obtained from; the date of the birds’ at, and departure from, the premises; the poultry’s destination on leaving the premises (if known); the purpose for which the poultry left the premises arrival and departures; and the name and address of the person to whom the poultry were transferred to. The farm register should be completed at the time of each notifiable event by the keeper or person responsible for the animals at the premises where they are kept. A sample farm register is available for use from the department or you can download one from our government website on our [keeping and moving livestock](#) page.

If you keep large numbers of poultry and it is difficult to account for all individuals then please provide an estimate based on your written records to within 10% accuracy.

If you keep poultry at more than one premises then you must enter all addresses on the application form and advise which species are kept at each holding. Your registers must be kept for inspection for 12 months. Please contact the department to de-register when you no longer wish to keep poultry.

Failure to observe the measures required under the Order is an offence under Article 29 of the Animal Health (Jersey) Law 2016. A person guilty of an offence under this Article is liable to imprisonment for a term of 2 years and to a fine.
