The Disease of Animals (Avian Influenza) (Jersey) Order 2005, as amended.
General Licence to import captive birds and pet birds from Great Britain, Northern Ireland, Bailiwick of Guernsey and Isle of Man.

General Licence JSY/AI/09/002
Under Article 3 of The Disease of Animals (Avian Influenza) (Jersey) Order 2005 as amended no person shall import any live birds or any eggs intended for hatching unless imported in accordance with this licence granted on behalf of the Minister.

Under Article 4 (4) of The Disease of Animals (Avian Influenza) (Jersey) Order 2005 as amended, imports must comply with the following conditions.

1. No birds must come from a holding or area subject to restrictions for Newcastle Disease or Avian Influenza.

2. Exporters must comply with the laws of the exporting country relating to the welfare and transport of animals. The birds must be transported in a suitable container, with adequate ventilation. Transport by air, should be in accordance with International air Transport Association (IATA) standards.

3. A record of where the birds were purchased or kept prior to export should be kept by the importer for at least 3 months from the date of the import.

4. The birds must not be released into the wild.

NB: CITES
For the import of captive and pet cage birds CITES certification is required for any species falling within the CITES classification

Any licence, permit or authorization granted under this Order may be revoked, suspended or varied at any time by the Minister or a person authorized to do so on behalf of the Minister
