

Online Under 10m logbook Instructions

You can enter your catch data on any computer, laptop, tablet or smart phone with an internet connection.

The online logbook is very intuitive to use however Marine Resources will offer training to anyone who needs it. Please contact Marine Resources by email or telephone the Licensing Officer on 448478.

If you do not have internet access there is a computer you can use at the Marine Resources Office at Howard Davis Farm in Trinity.

The online logbook is designed for regular (not bulk) inputting. It is much easier to enter each days fishing as you go rather than entering several days. We recommend you enter your catches on a daily or weekly basis. This is much easier than entering them all at the end of the month.
