

Archaeological Survey – Field H1552 & H 1551

Description of works:

We would like to carry out an archaeological survey of the geophysical landscape to determine any areas of historic significance that may require further archaeological investigation. The archaeologists will also be providing a watching brief on any excavations carried out during the geotechnical site investigation works to observe if there are unearthened areas of archaeological importance.

Fig. 01

Plant and Equipment:

The planned equipment of use will be a ground penetrating radar capable of detecting materials up to 5 metres in depth.

Duration:

We would like to start the survey in field H 1552 & H 1551 on 07/06/2021 for approx. 1 week.

The proposed survey working times are between 08:00AM and 17:00PM Monday to Friday.

No works will be undertaken on Saturdays and Sundays.

ROKFCC have already alerted the neighbours to the survey works and they will continue to keep all parties involved informed throughout the process and do everything they can to minimise disruption.

Number of personnel:

There will be 1 nr. personnel attending.
