[REDACTED],

Many thanks. The letter and its request appear well reasoned. I am happy for you to go ahead and make the appropriate recommendation to the Minister.

[REDACTED]

Very best wishes,

Susan

Susan

Attached please find a letter from Jersey Water which is self-explanatory.

I have looked at the limits requested which represent a reduction in the previous dispensation, and agree with the suggestions they make about cumulative values.

My recommendation would be that the Minister of Health supports the application.

I am happy to discuss this and present to the Minister in your absence if appropriate.

Kind regards
