Deputy John Young
Minister for the Environment
BY EMAIL

Dear Deputy Young,

Thank you very much for your letter and I am acutely aware of the history of this case. I wrote to the Ports of Jersey in December 2018 with my opinion that no further evidence had been offered to me at that stage. I am now in receipt of this consultant study which claims that there is new evidence in support of the 1937 building.

My responsibility will be to look at this study and additionally I am seeking views from industry to assist with my understanding of the regulations and any mitigations that would be deemed to be acceptable. I have started that process and I should be able to update you as soon as possible with my view on whether this new study offers any new evidence to support or not on the building's future.

Yours Faithfully,

[REDACTED]
