

IMPORTANT INFORMATION for students of Victoria College and Jersey College for Girls (JCG) on Thursday 20th August 2009.

Mont Millais and Bagatelle Road (A6), St Helier

Resurfacing Works

TTS is undertaking essential maintenance works to this major route into and out of St Helier to provide road-users with a good quality, durable road surface.

Special arrangements have been made for students and parents wishing to attend the two schools to receive A-Level results.

Date: Thursday 20 August 2009

Access Arrangements for JCG:

Students and parents wishing to access JCG can do so from the south (Don Road junction) or north (Bagatelle Road). The exit will be to the north.

Access Arrangements for Victoria College:

Students and parents wishing to access Victoria College should do so from the south (Don Road junction). Access will not be provided from the north. The exit will also be to the south.

Other road-users:

Resurfacing works are continuing and no through traffic will be permitted, as before. Please continue to use the diversion routes as previously advertised. Access will only be given to JCG & Victoria College for students and parents collecting results.

TTS and A Le Sech (Asphalt) Ltd regret the inconvenience that these essential maintenance works will cause and ask the motoring public to avoid the area if possible or allow more time for their journeys. Please work with us to minimise disruption by following the carefully considered diversion routes and not contributing to the Victoria College and JCG traffic.

Any queries or comments, please contact the Site Supervisor on 07797 914770.
