

## Registered Actively Seeking Work August 2014

Statistics Unit: [www.gov.je/statistics](http://www.gov.je/statistics)

### Summary

On 31 August 2014:

- on a **seasonally adjusted**<sup>1</sup> basis, the total number of people registered as actively seeking work (ASW) in Jersey was<sup>2</sup>:
  - 10 higher than a month earlier, July 2014;
  - at the same level as the average (mean) for the preceding three months;
- the seasonally adjusted ASW total remained at essentially the lowest level seen for more than two and a half years, since December 2011;
- the **non-seasonally adjusted ASW total** was 1,510; this latest total is 10 lower than in the previous month (July 2014) and 310 lower than a year earlier (August 2013);
- **long-term ASW** (registered for more than twelve months) accounted for a sixth (17%) of total ASW; the number of long-term ASW (250 individuals) was 10 higher than the previous month (July 2014)
- 260 **teenagers aged 16-19 years** were registered as ASW, reflecting the seasonal registering of school leavers; 100 teenagers were on the Advance to Work scheme, 20 more than the previous month.

### Introduction

Data on people registered as actively seeking work in Jersey is compiled and administered by the Social Security Department. The Statistics Unit independently analyses this anonymised data and publishes a monthly report<sup>3</sup>.

When interpreting the numbers presented, it should be noted that there is no legal requirement for unemployed residents of Jersey to register as actively seeking work (ASW) with the Social Security Department. The numbers shown constitute an informative set of indicators demonstrating the level of individuals actively seeking work in the Island at a given point in time.

The internationally comparable unemployment rate (as defined by the International Labour Organisation, ILO) includes people who are registered and also those who are not registered as unemployed and seeking work. The ILO unemployment rate for Jersey is measured by the Annual Social Survey and the Census; in recent years, the ILO unemployment rate for Jersey has been:

- 4.7% in March 2011, measured by the 2011 Jersey Census; this unemployment rate corresponded to 2,570 people being unemployed and looking for work in March 2011;
- 5.7% in June 2013, measured by the 2013 Jersey Annual Social Survey; this unemployment rate corresponded to 3,200 people being unemployed and looking for work in June 2013.

<sup>1</sup> Seasonal adjustment is a statistical technique which enables examination of the underlying behaviour in a series of data by removing variations associated with the time of year, e.g. Christmas, Easter, academic year.

<sup>2</sup> ASW numbers presented in this report are rounded independently to the nearest 10.

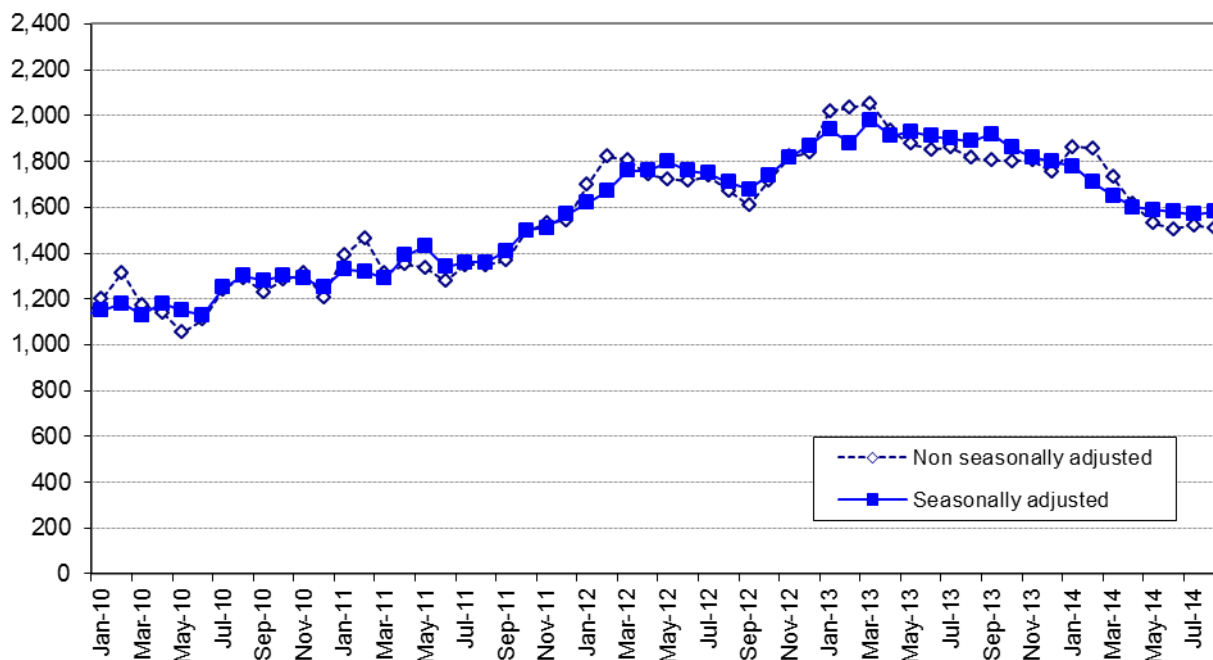

<sup>3</sup> Up until March 2014 the end-of-month ASW figures published by the Statistics Unit were based on administrative data compiled by the Social Security Department on (or close to) the 15<sup>th</sup> of the following month. From the April 2014 report onwards the end-of-month figures published are based on data compiled on (or close to) the 1<sup>st</sup> of the following month. Moving the data compilation date forward by two weeks will enable earlier publication of the monthly figures. It should be noted that the earlier data compilation date introduces a small upward systematic shift (of approximately 20) in the number of people classified as ASW at each end-of-month.

## Registered Actively Seeking Work

On 31 August 2014, 1,510 people were registered with the Social Security Department as actively seeking work (ASW). Three-quarters (75%) of individuals registered as ASW on this date (corresponding to 1,130 people) were receiving Income Support<sup>4</sup>, representing an increase of 20 people compared with the previous month (July 2014).

Figure 1 shows the total number of people registered as ASW at the end of each month since January 2010 (monthly data are shown in Appendix Table A1). The total number registered in August 2014 was 10 lower than in the previous month (July 2014) and 310 lower than a year earlier (August 2013).

**Figure 1 – Total number of individuals registered as ASW, Jan 2010 – Aug 2014**

The seasonally adjusted series of the total registered as ASW, in which seasonal and calendar effects are removed, is also shown on Figure 1. From this perspective, the total number of people registered as ASW in Jersey in August 2014 was:

- 10 higher than a month earlier, July 2014;
- at the same level as the mean for the preceding three-month period, May 2014 to July 2014;
- 310 lower than a year earlier (August 2013).

## Registered ASW by age

On 31 August 2014, over a quarter (28%) of people registered as ASW were under the age of 25 years (420 individuals); one in six (17%) of the total were teenagers aged 16-19 years.

Figure 2 shows the numbers registered as ASW by age of individuals in each of the last six months, from March to August 2014.

In the latest month, all age groups saw small changes (increases or decreases of 10 or fewer) in the number of people registered as ASW compared with the previous month.

<sup>4</sup> The total number of adults receiving Income Support and not working will be greater than this figure, which represents the number of people receiving Income Support who were registered as ASW on 31 August 2014.

**Figure 2 – Individuals registered as ASW by age, Mar 2014 – Aug 2014**

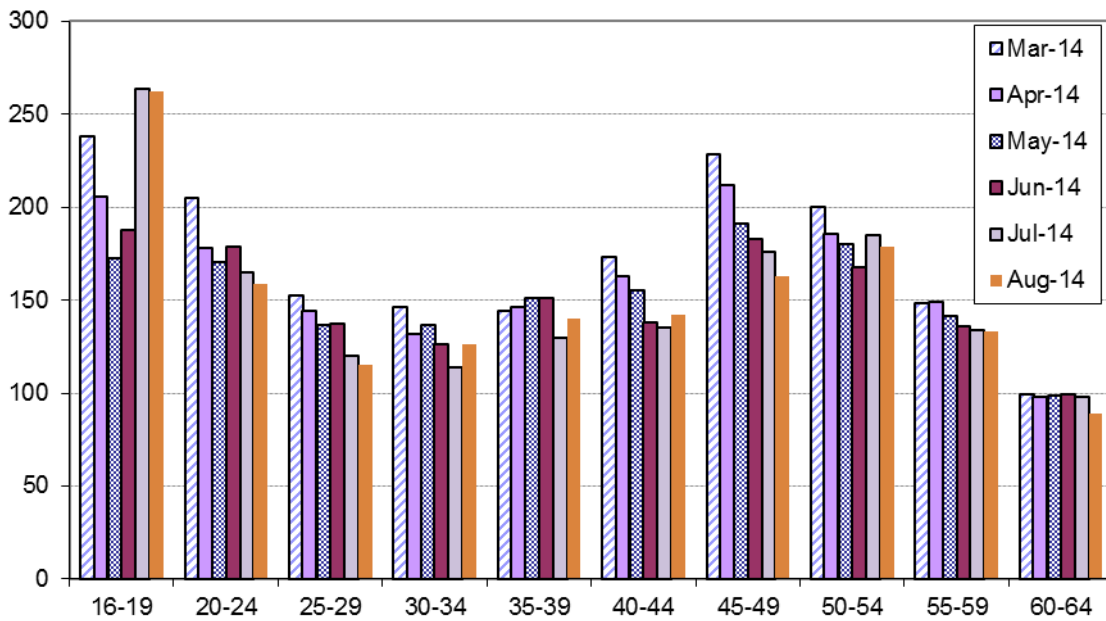

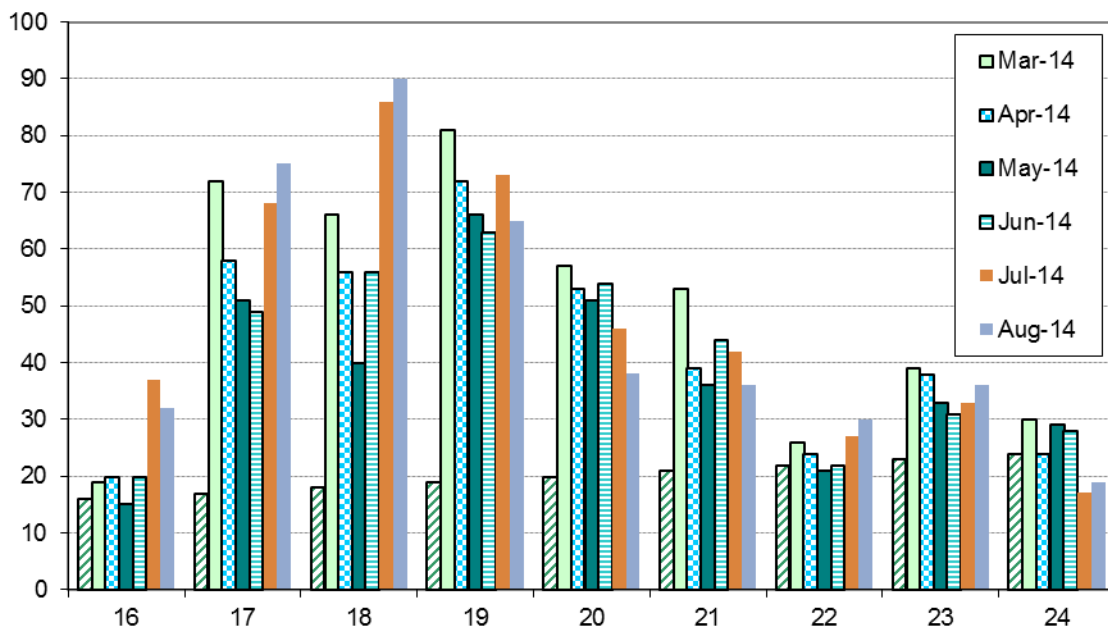

Figure 3 shows the age distribution for people below 25 years of age who were registered as ASW in the latest six months, from March to August 2014.

260 teenagers (aged 16-19 years) were registered as ASW at the end of August 2014, a similar number as the previous month (July 2014). The increase in the number of teenagers recorded in July and August 2014, compared with the number in June 2014, is largely due to the seasonal registering of school leavers.

Of those teenagers registered as ASW at the end of August 2014, 100 were on the Advance to Work scheme, 20 more than at the end of the previous month (July 2014).

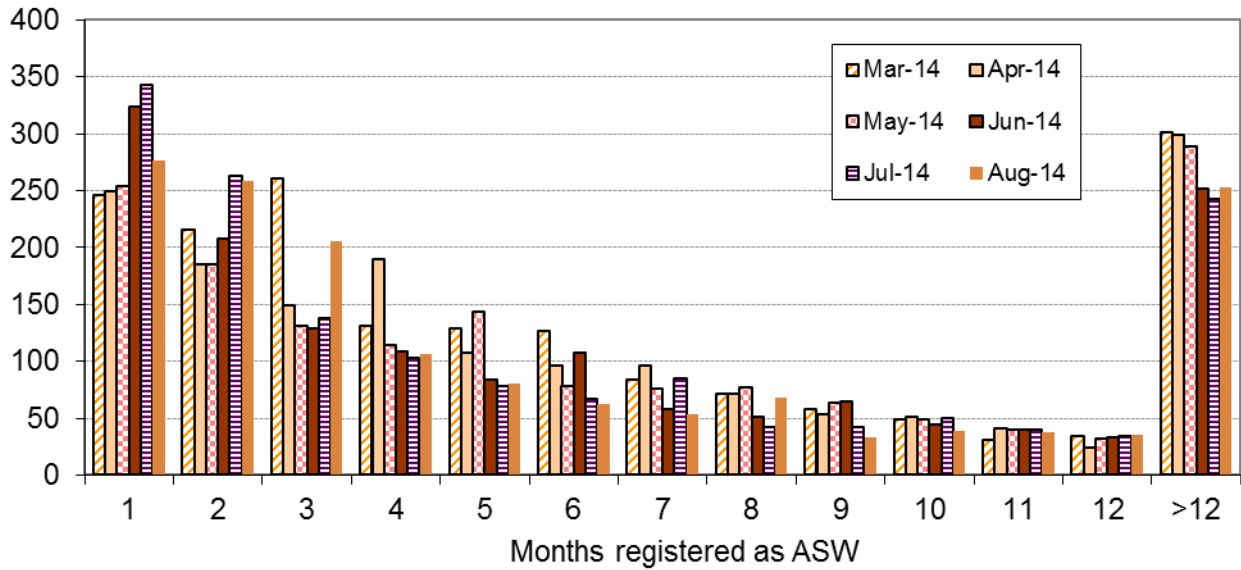

**Figure 3 – Individuals under the age of 25 registered as ASW, Mar 2014 – Aug 2014**

### ASW duration

Almost half (49%) of all people registered as ASW on 31 August 2014 had been registered for three months or less – see Figure 4.

**Figure 4 – Registered ASW by length of period registered (months), Mar 2014 – Aug 2014**

280 people had registered as ASW in the latest month (August 2014), 60 fewer than in the previous month (July 2014).

### Long-term ASW

On 31 August 2014, there were 250 people who had been registered as ASW for more than twelve months, accounting for a sixth (17%) of total ASW.

The latest number of long-term ASW was 10 higher than in the previous month (July 2014), but remained at essentially the lowest level recorded since mid-2011 - see Figure 5.

**Figure 5 – Long-term ASW, Jan 2010 – Aug 2014**

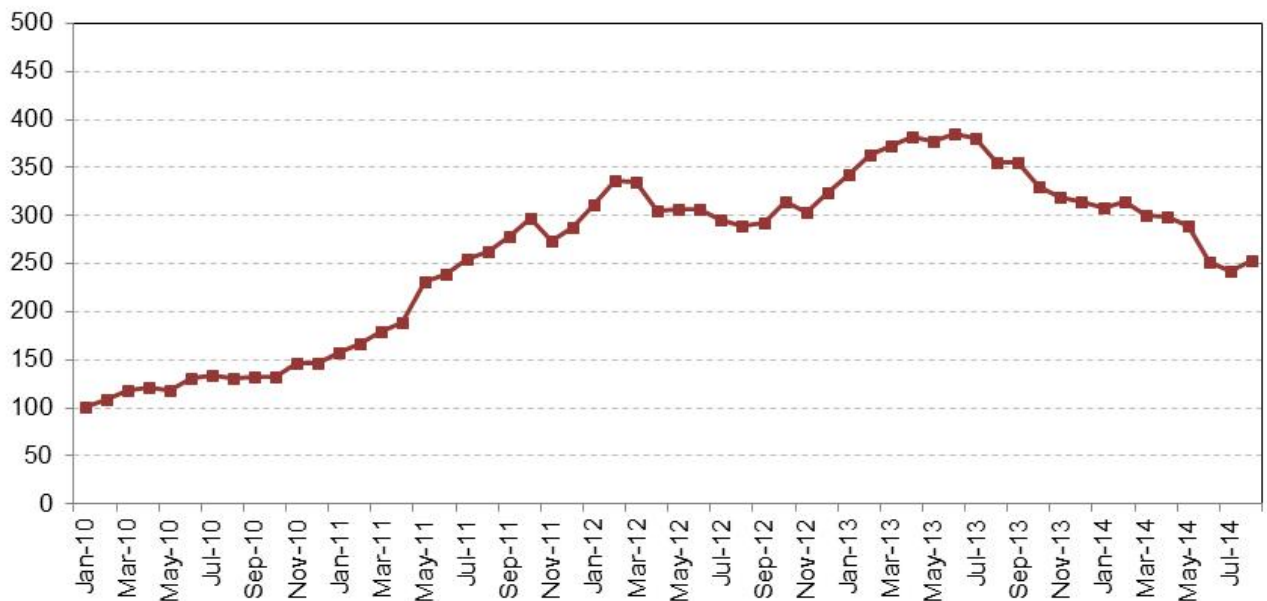

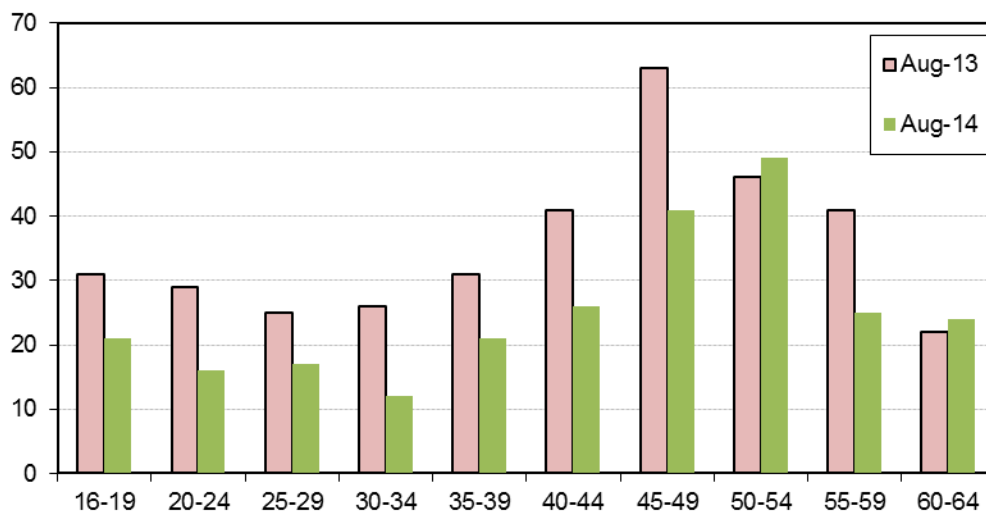

Figure 6 shows the age distribution of the long-term ASW in August 2014. Most age groups have seen a decrease in the number of long-term ASW during the past twelve months.

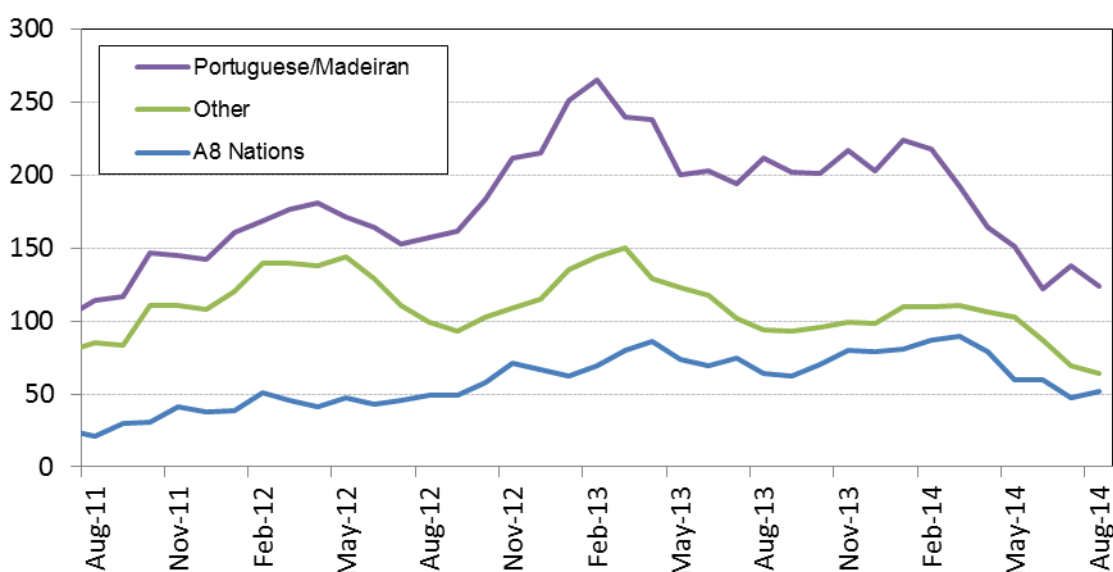

**Figure 6 – Long-term ASW by age, Aug 2013 and Aug 2014**

### Registered ASW by Nationality

On 31 August 2014, more than four-fifths (84%) of all people registered as ASW were of British/Jersey nationality<sup>5</sup>. The number of individuals registered as ASW for nationalities other than British/Jersey during the last three years is shown in Figure 7.

**Figure 7 – Individuals registered as ASW by nationality, Aug 2011 – Aug 2014**

On 31 August 2014 there were:

- 120 individuals of Portuguese/Madeiran nationality registered as ASW, 20 fewer than the previous month (July 2014) and 90 fewer than the corresponding month of 2013;
- 50 individuals from the EU Accession (A8)<sup>6</sup> nations were registered as ASW, a similar number to the previous month (July 2014) and 10 fewer than the corresponding month of 2013.

<sup>5</sup> Nationality recorded by the Social Security Department for the purpose of registering as ASW is self-reported.

<sup>6</sup> The eight countries which joined (“gained accession to”) the European Union in May 2004 were: the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia.

## Industry

Individuals working in some industries of the economy, notably in the Finance sector, often seek employment through private agencies and do not register with the Social Security Department. Such industries will, therefore, tend to be under-represented in the ASW numbers.

The last industry of employment was recorded for around nine out of ten people registered as ASW on 31 August 2014:

- almost a quarter (23%) were previously employed in 'Retail and Wholesale, Motor repairs and sales';
- one in six (17%) were previously employed in 'Miscellaneous professional & domestic services';
- around one in seven (14%) were previously employed in 'Banking, Miscellaneous Insurance, Finance and Business.

## Notes

The numbers of people registered as ASW include people who are on the Advance to Work, Advance Plus and Workwise schemes. The ASW total will also include individuals who are working fewer than the 35 hours per week required under the terms of Income support (see Annex); such individuals will simultaneously be working and actively seeking work.

When placing the figures contained in this report in a longer term historical context it should be recognised that there have been significant changes in the criteria relating to registered ASW in Jersey in recent years. In particular, the introduction of Income Support in 2008 led to greater numbers of individuals who were actively seeking work being included in the registered figures.

People who are registered as actively seeking work receive the support of one of the government employment schemes which come under the administration of Back to Work. They are:

- Advance to Work – for jobseekers aged 16 – 19 years;
- Advance Plus – for jobseekers with an industry-specific interest aged 20 – 65 years;
- Workwise – for jobseekers with special employment needs;
- Work Zone – for all registered jobseekers;
- Long Term Unemployment Unit – for jobseekers who have been ASW for 52 weeks or more.

In addition to the development and expansion of these schemes, Back to Work is responsible for:

- The Employment Grant, Hospitality Incentive and Youth Incentive;
- A dedicated Employer Engagement team;
- Industry and employer specific initiatives.

The aim of Back to Work is to increase access to job opportunities for locally qualified people who are registered as actively seeking work by supporting jobseekers and building a partnership with employers to provide sustainable job opportunities.

*Statistics Unit  
11 September 2014*

## ASW registered underemployment

Individuals who are working fewer hours than they would like or who would like to change their current working situation are classified as underemployed. The International Labour Organisation (ILO) provides two definitions of underemployment<sup>7</sup>:

- *time related underemployed*, which is due to insufficient hours of work;
- *inadequate employment situations*, which are due to other limitations in the labour market which limit the capacities and well-being of workers.

In Jersey, individuals who are in receipt of Income Support are required to work at least 35 hours per week, unless exempt from full-time work; those who do not meet this requirement must register as Actively Seeking Work. Hence, the ASW total figure includes individuals who are working less than the 35 hours per week required under the terms of Income support; such individuals will simultaneously be working and actively seeking work, and are classified as underemployed under the ILO definition of *time related underemployment*.

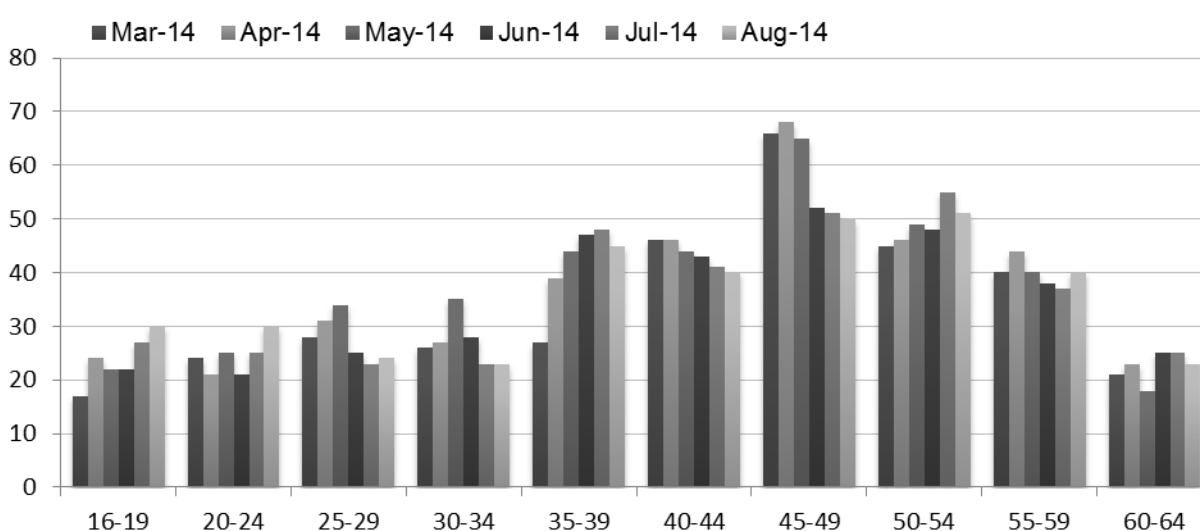

In August 2014, almost a quarter (24%) of all people registered as ASW were underemployed, meaning they were working less than 35 hours per week and were actively seeking more work. The numbers of such individuals in each month from August 2013 to August 2014 are shown in Table A1.

**Table A1 – Number of ASW registered underemployed, Aug 2013 – Aug 2014**

	Aug-13	Sep-13	Oct-13	Nov-13	Dec-13	Jan-14	Feb-14	Mar-14	Apr-14	May-14	Jun-14	Jul-14	Aug-14
<b>Individuals</b>	357	349	355	375	373	353	366	340	369	376	349	355	356
<b>Percentage of total ASW</b>	20%	19%	20%	21%	21%	19%	20%	20%	23%	25%	23%	24%	24%

Figure A1 shows the age distribution of people registered as ASW underemployed; almost half (46%) were aged 45 years or over.

**Figure A1 - Age distribution of ASW registered underemployed, Mar 2014 – Aug 2014**

Of those people who were registered as ASW underemployed in July 2014:

- three-fifths (61%) were female;
- almost a third (31%) had been actively seeking work for more than a year;
- nine out of ten (90%) were claiming Income Support.

<sup>7</sup> International Labour Organisation: *Resolution concerning the measurement of underemployment and inadequate employment situations.*

## Appendix

### Number of individuals registered as ASW, Jan 2010 – Aug 2014<sup>8</sup>
