## Summary

- in 2009/10 average total household expenditure in Jersey was £724 per week.
- spending was greatest on Housing, fuel and power, at £205 per week, accounting for more than a quarter of total household expenditure.
- Transport and Recreation and culture were the next highest spending categories (£94 and £86 per week, respectively).
- the average expenditure on Food and non-alcoholic drinks was £74 per week.
- the average total weekly household expenditure ranged from £331 in the lowest of the five quintiles of gross income to £1,443 in the highest.
- the average total weekly expenditure of owner-occupied households (£877 per week) was more than double that of households living in social rental accommodation (£426 per week).
- households living in other rental accommodation (qualified or non-qualified) had total weekly expenditure roughly mid-way between these two tenure categories.
- the average total weekly household expenditure ranged from £315 per week for single pensioners to £1,115 per week in households containing a couple with at least one dependent child (aged 15 or under).
- after adjusting for inflation (which includes the effect of the introduction of GST), household spending in 2009/10 was, on average, at a similar level to that in 2004/5.
- the average total weekly expenditure of households in Jersey was about three-fifths greater than in the UK; *this should not be considered as a measure of the relative cost of living between the two jurisdictions.*

---

## Introduction

The latest round of the Jersey Household Expenditure Survey was combined with the household Income Distribution Survey in order to conduct an efficient, cost-effective exercise. The resulting Household Spending and Income Survey ran from May 2009 to May 2010.

The spending aspect of this joint exercise is henceforth designated as the Jersey Household Spending Survey (HSS). The income aspect is designated as the Jersey Income Distribution Survey (IDS); the report on the IDS was published in September 2010.

The combined survey ran over a twelve-month period in order to capture differences in seasonal expenditure e.g. typically higher and different expenditure in the run-up to Christmas and differences between goods and services bought in winter and summer.

A total of 1,155 households took part in the spending component of the survey, representing a response rate of 43%. This is a good response rate for such a detailed and involved household survey (see Appendix A for an outline of the survey design).

In this report, household spending is analysed according to the internationally agreed classification system for reporting household consumption expenditure: Classification of Individual Consumption by Purpose (COICOP). Under COICOP, household consumption expenditure is categorised into the following 12 headings:

1. Food & non-alcoholic drinks
2. Alcoholic drinks & tobacco
3. Clothing & footwear
4. Housing, fuel & power
5. Household goods & services
6. Health
7. Transport
8. Communication
9. Recreation & culture
10. Education
11. Restaurants & hotels
12. Miscellaneous goods & services

Total expenditure presented in this report comprises the sum of expenditure in COICOP groups 1 to 12, which constitute final consumption expenditure of households. For more information on the COICOP system classification, and particularly the treatment in this report of expenditure relating specifically to housing, see Appendix B.

## Acknowledgements

This report is the result of considerable collaborative effort. The Statistics Unit wishes to thank the interviewers who conducted the fieldwork. Furthermore, the surveys and subsequent reports would not have been possible without the cooperation of the respondents who gave up their time to be interviewed and kept a detailed diary of their spending. Their help is gratefully acknowledged.

---

## Notes

Throughout this report individual numerical entries have been rounded independently. As a result, columns may not appear to sum to column totals. This is simply a result of rounding; the un-rounded entries do sum correctly.

Monetary values are rounded to the nearest 10 pence in tables and to the nearest £1 in the text. Percentages are rounded to the nearest integer throughout and are shown in italics in tables.

In tables, the symbol “-” is used to represent a non-zero cell that is less than the smallest rounded value shown in each table. Zero (“0”) signifies a cell whose true value is zero. The term “n.e.c.” after a specified commodity or service corresponds to “not elsewhere classified”.

All entries, unless otherwise stated, represent **average weekly** household expenditure or percentages of total **average weekly** household expenditure. The averages presented are arithmetic means.

---

## Chapter 1 - Overview of spending

This chapter presents the key findings of the 2009/10 Jersey Household Spending Survey (HSS). Average weekly expenditure is presented for all households and also broken down by:

- income (gross and equivalised);
- tenure;
- household composition.

All of the more detailed spending tables referred to in this chapter can be found in Appendix D.

### Average household expenditure – all households

In 2009/10 the average total household expenditure of Jersey households was £724 per week.

As Table 1.1 shows, spending was greatest on Housing, fuel and power, at £205 per week, accounting for more than a quarter (28%) of total household expenditure. Transport and Recreation and culture were the next highest spending categories (£94 and £86 per week, respectively). The average expenditure on Food and non-alcoholic drinks was £74 per week.

Table 1.1 – Average household expenditure by category and total;  
£ per week and percentage of total

Expenditure group	£ per week	percent
Housing, fuel & power	205.00	28
Transport	94.00	13
Recreation & culture	86.00	12
Food & non-alcoholic drinks	73.70	10
Miscellaneous goods & services	70.40	10
Restaurants & hotels	51.50	7
Household goods and services	44.60	6
Clothing & footwear	24.50	3
Education	23.80	3
Health	21.20	3
Alcoholic drinks & tobacco	15.10	2
Communication	14.50	2
<b>Total expenditure</b>	<b>724.20</b>	<b>100</b>
Other expenditure items <sup>1</sup>	52.20	

---

<sup>1</sup> Expenditure group 13, “other expenditure items” which includes items such as capital improvements, money transfers and off-Island (e.g. holiday) spending, is not considered to be final consumption expenditure (see Appendix B). A small number of items in this category were captured by the survey questionnaires and are shown in the spending tables for completeness (separately, below totals). Such expenditure is not included in total expenditure.

Another way to think of the breakdown of household spending is in terms of how each pound is spent. On average 28p is spent on Housing, fuel and power, 10p on Food, 2p on Communication and so on. Figure 1.1 presents this information visually by splitting a notional £1 coin into segments representing each of the expenditure categories.

Figure 1.1 - Breakdown of average weekly household spending (percent)

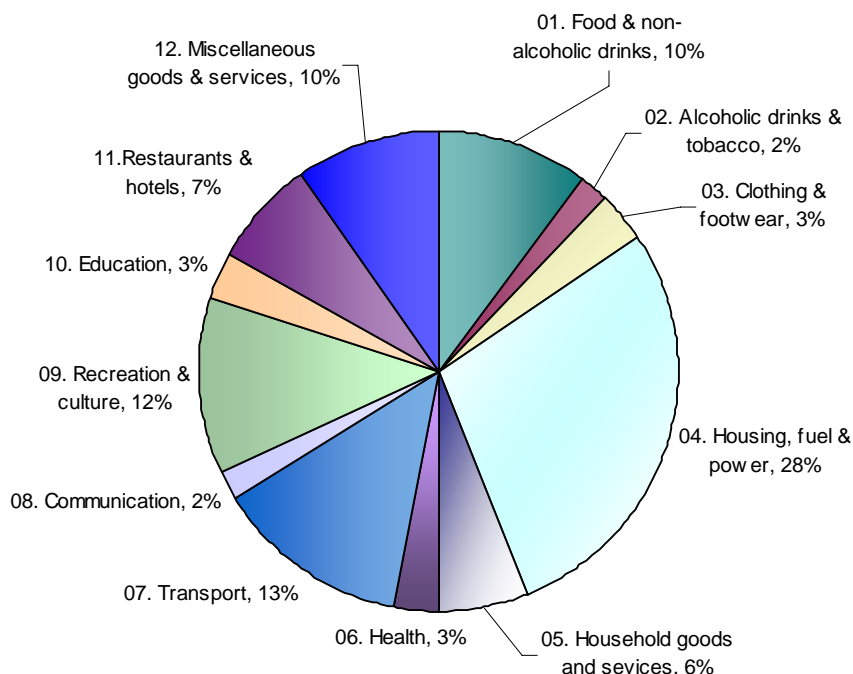

Table D1 in Appendix D provides a more detailed breakdown of household expenditure, for all households. When looking at this level of data it is important to note that items which are relatively inexpensive but bought regularly (e.g. fresh vegetables) may have an average weekly spend that is greater than that for expensive items (e.g. computers) which, though more costly, are bought less frequently. Hence, it is the combination of cost and frequency of purchase which determines the contribution of specific items to total household spending.

Looking at the detailed spending data shows many interesting features; for example:

- of the £68 spent on Food each week, households spend, on average around £9 per week on bread, rice and cereals, roughly equal amounts on fresh fruit and fresh vegetables (£6 per week, each), £3 per week on milk and £2 per week on chocolate;
- £15 per week was spent on petrol, diesel and other motor fuels and almost £4 per week on parking;
- domestic energy spending amounted to £29 per week, of which £18 per week was spent on electricity and £7 per week on heating oil;
- households spent an average of £21 per week on Health of which more than a third (£8 per week) was spent on dentists and nearly a quarter (£5 per week) on doctors fees;
- average spending on air travel was £18 per week and £21 per week on package holidays;
- on average, households spent £43 per week in restaurants, cafes, bars and takeaways, including alcohol bought on licensed premises;
- the average household spend on tobacco products was £6 per week.

## Chapter 2 - Household expenditure by income

### Gross income

Household incomes have been ranked in ascending order of gross cash income<sup>2</sup> and divided into quintile groups in order to examine expenditure patterns across the different income groups. Households with the smallest income lie in the first quintile group (the lowest twenty percent) and those with the largest income lie in the fifth quintile group (the highest twenty percent).

Average weekly household expenditure ranged from £331 in the lowest of the five gross income quintiles to £1,443 in the highest.

Table 2.1 – Average weekly household expenditure by gross income quintile (£ per week)

Expenditure group	Lowest	Second	Middle	Fourth	Highest	All
1. Food & non-alcoholic drinks	£46.10	£60.50	£73.00	£84.80	£113.30	<b>£73.70</b>
2. Alcoholic drinks & tobacco	£10.70	£12.80	£16.50	£17.30	£19.40	<b>£15.10</b>
3. Clothing & footwear	£11.30	£19.20	£18.60	£30.40	£48.10	<b>£24.50</b>
4. Housing, fuel & power	£91.90	£146.80	£185.10	£250.80	£392.70	<b>£205.00</b>
5. Household goods & services	£19.60	£29.90	£38.80	£48.30	£96.80	<b>£44.60</b>
6. Health	£16.40	£16.90	£21.10	£23.70	£29.70	<b>£21.20</b>
7. Transport	£37.70	£57.50	£82.20	£117.90	£197.40	<b>£94.00</b>
8. Communication	£7.10	£11.80	£14.60	£17.80	£23.40	<b>£14.50</b>
9. Recreation & culture	£35.40	£55.00	£85.60	£98.30	£175.00	<b>£86.00</b>
10. Education	£3.30	£2.60	£8.40	£26.30	£91.00	<b>£23.80</b>
11. Restaurants & hotels	£22.20	£31.70	£41.20	£70.80	£104.10	<b>£51.50</b>
12. Miscellaneous goods & services	£29.00	£38.20	£60.20	£90.40	£152.10	<b>£70.40</b>
<b>Total expenditure</b>	<b>£330.70</b>	<b>£482.90</b>	<b>£645.20</b>	<b>£876.80</b>	<b>£1,443.00</b>	<b>£724.20</b>
Other expenditure items	£22.10	£22.70	£26.70	£48.40	£160.20	£52.20

<sup>2</sup> Gross cash income includes: all gross earned and unearned income, pensions and gifts (such as inheritances) and all benefits (household and individual).

As Table 2.2 shows, households in the lowest gross income quintile spent a greater proportion of their total average weekly expenditure on Food and non-alcoholic drinks, on Health and on Alcoholic drinks and tobacco (14%, 5% and 3%, respectively) than those in the highest income quintile (8%, 2% and 1%, respectively).

Conversely, the lowest gross income quintile spent a smaller proportion of their total average weekly expenditure on Transport and on Education (11% and 1%, respectively) than those in the highest income quintile (14% and 6%, respectively).

The proportions of total average weekly expenditure spent on Clothing & footwear, Household goods & services, Communication, Recreation & culture and Restaurants & hotels were similar across the quintiles of gross income.

**Table 2.2 – Percentage of average weekly household expenditure by gross income quintile**

<b>Expenditure group</b>	<b>Lowest</b>	<b>Second</b>	<b>Middle</b>	<b>Fourth</b>	<b>Highest</b>	<b>All</b>
1. Food & non-alcoholic drinks	14	13	11	10	8	10
2. Alcoholic drinks & tobacco	3	3	3	2	1	2
3. Clothing & footwear	3	4	3	3	3	3
4. Housing, fuel & power	28	30	29	29	27	28
5. Household goods & services	6	6	6	6	7	6
6. Health	5	3	3	3	2	3
7. Transport	11	12	13	13	14	13
8. Communication	2	2	2	2	2	2
9. Recreation & culture	11	11	13	11	12	12
10. Education	1	1	1	3	6	3
11. Restaurants & hotels	7	7	6	8	7	7
12. Miscellaneous goods & services	9	8	9	10	11	10
<b>Total expenditure</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>

As a proportion of average total weekly expenditure, Housing, fuel & power accounted for similar proportions (around 30%) in all the quintiles of gross income. However, when this category of expenditure is examined more closely, some differences are apparent (see Figure 2.1):

- the higher income quintiles spend a greater proportion of total expenditure on house purchase costs (mortgage payments), whereas the lower income quintiles spend greater proportions on rent. This behaviour simply reflects the tendency for lower income households to live in rental accommodation and higher income households to be owner occupiers;

- the proportion of total expenditure spent on domestic energy increases as gross income decreases; for example households in the lowest quintile group spend 6% of their total average weekly expenditure on domestic energy compared with 3% for households in the highest quintile.

Figure 2.1 – Components of housing costs as percentages of average total household spending, by gross income quintile

## Equivalised income

Equivalisation is a standard methodology that adjusts the total income of a household by considering household size and composition<sup>3</sup> in order to account for differing demands on resources.

The process of equivalisation reflects the common sense notion that larger households will require a higher income than a single person living alone in order to enjoy a comparable standard of living. It takes into account both the greater income needs of larger households and the economies of scale achieved when people live together (since household resources can be shared). By adjusting household income in this way it is possible to make comparisons between households of different sizes and compositions on a consistent basis.

The upper boundaries of the first four quintiles of household annual gross and equivalised income are shown in Table 2.3.

Table 2.3 – Quintile upper boundaries of household gross and equivalised income (£ per annum)

	Lowest	Second	Third	Fourth
Gross income	£24,400	£33,600	£47,400	£69,400
Equivalised income	£21,500	£34,100	£50,000	£76,500

Figures have been rounded to the nearest £100.

<sup>3</sup> Gross cash income for each household has been equivalised using the Modified OECD scale. More information on the equivalisation methodology, and on Jersey household incomes, can be found in: Jersey Income Distribution Survey Report 2009/10: States of Jersey Statistics Unit, September 2010.

As Table 2.4 shows, the average total weekly expenditure of households on various goods and services increases with equivalised income.

Table 2.4 - Average weekly household spending by **equivalised** income quintile (£ per week)

Expenditure group	Lowest	Second	Middle	Fourth	Highest	All
1. Food & non-alcoholic drinks	£59.60	£64.70	£74.70	£84.90	£89.20	<b>£73.70</b>
2. Alcoholic drinks & tobacco	£12.40	£13.60	£17.80	£16.10	£16.00	<b>£15.10</b>
3. Clothing & footwear	£14.40	£17.00	£24.80	£27.50	£43.10	<b>£24.50</b>
4. Housing, fuel & power	£100.60	£159.70	£193.10	£259.50	£347.90	<b>£205.00</b>
5. Household goods & services	£20.20	£35.50	£42.90	£44.20	£88.90	<b>£44.60</b>
6. Health	£17.40	£15.80	£21.60	£27.80	£24.90	<b>£21.20</b>
7. Transport	£46.30	£58.30	£80.90	£117.70	£187.60	<b>£94.00</b>
8. Communication	£8.70	£12.70	£14.80	£17.00	£21.00	<b>£14.50</b>
9. Recreation & culture	£40.80	£58.50	£86.70	£104.90	£155.90	<b>£86.00</b>
10. Education	£3.30	£7.70	£17.20	£28.40	£72.30	<b>£23.80</b>
11. Restaurants & hotels	£22.50	£32.50	£47.40	£73.30	£92.90	<b>£51.50</b>
12. Miscellaneous goods & services	£34.10	£43.40	£64.50	£97.00	£127.50	<b>£70.40</b>
<b>Total expenditure</b>	<b>£380.30</b>	<b>£519.10</b>	<b>£686.50</b>	<b>£898.20</b>	<b>£1,267.20</b>	<b>£724.20</b>
Other expenditure items	£22.40	£23.10	£33.50	£66.60	£131.30	£52.20

The differences in expenditure between the quintiles of equivalised income are less pronounced for each category of expenditure than those for non-equivalised gross income (see corresponding table for non-equivalised gross income, Table 2.1).

For equivalised income, total household expenditure ranged from £380 per week in the lowest equivalised income quintile to £1,267 in the highest equivalised income quintile, compared with a range of £330 per week to £1,443 per week before equalisation.

The reduction in the variation of expenditure across the income quintiles after equalisation has been performed is particularly evident for spending on Food & non-alcoholic drinks. For the non-equivalised income quintiles, average weekly household expenditure in this category ranged from £46 per week in the lowest income quintile to £113 per week in the highest income quintile. After equalisation, the difference between quintiles narrowed considerably, with average expenditure on Food and non-alcoholic drinks in the lowest equivalised quintile being £60 per week rising to £89 per week in the highest equivalised income quintile.

Table 2.5 shows the percentage of total expenditure of households in each of the equivalised income quintiles.

**Table 2.5 - Percentage of average weekly household spending by *equivalised* income quintile**

<b>Expenditure group</b>	<b>Lowest</b>	<b>Second</b>	<b>Middle</b>	<b>Fourth</b>	<b>Highest</b>	<b>All</b>
1. Food & non-alcoholic drinks	16	12	11	9	7	10
2. Alcoholic drinks & tobacco	3	3	3	2	1	2
3. Clothing & footwear	4	3	4	3	3	3
4. Housing, fuel & power	26	31	28	29	27	28
5. Household goods & services	5	7	6	5	7	6
6. Health	5	3	3	3	2	3
7. Transport	12	11	12	13	15	13
8. Communication	2	2	2	2	2	2
9. Recreation & culture	11	11	13	12	12	12
10. Education	1	1	3	3	6	3
11. Restaurants & hotels	6	6	7	8	7	7
12. Miscellaneous goods & services	9	8	9	11	10	10
<b>Total expenditure</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>

Table 2.5 exhibits a similar pattern to that seen for the non-equivalised income quintiles of Table 2.2:

- households in the lowest equivalised income quintile spend higher proportions of their total expenditure on Food & non-alcoholic drinks, on Health and on Alcoholic drinks & tobacco (16%, 5% and 3%, respectively in these categories) than households in the highest income quintile (7%, 2% and 1%, respectively);
- households in the highest equivalised income quintile spend greater proportions on Transport and on Education (15% and 6%, respectively) than those households in the lowest equivalised income quintile (12% and 1%, respectively).

## Chapter 3 - Household expenditure by tenure

The tenure of the accommodation in which households were living has been broken down into four broad categories for the purposes of this report: owner-occupied; qualified rental; social rental (including States, parish and housing trust accommodation); and non-qualified rental (which includes registered lodging houses and non-residentially qualified people living as lodgers or in tied/staff accommodation).

The report on the 2009/10 Jersey Income Distribution Survey showed there was a significant correlation between household income and tenure. Table 3.1 shows that from an expenditure perspective household spending was also strongly dependent on tenure.

The average total weekly expenditure of owner-occupied households (£877 per week) was more than double that of households living in social rental accommodation (£426 per week). Households living in other rental accommodation (qualified or non-qualified) had total weekly expenditure, at more than £600 per week, roughly mid-way between these two tenure categories.

Table 3.1 - Average weekly household spending by tenure (£ per week)

Expenditure group	Owner-occupied	Qualified rental	Social rental	Non-qualified rental	All
1. Food & non-alcoholic drinks	£84.60	£61.30	£61.20	£65.30	<b>£73.70</b>
2. Alcoholic drinks & tobacco	£13.20	£15.80	£20.50	£14.40	<b>£15.10</b>
3. Clothing & footwear	£25.20	£23.60	£20.70	£29.90	<b>£24.50</b>
4. Housing, fuel & power	£227.20	£203.90	£127.30	£218.50	<b>£205.00</b>
5. Household goods & services	£61.60	£30.50	£23.90	£19.40	<b>£44.60</b>
6. Health	£27.30	£13.70	£16.20	£14.10	<b>£21.20</b>
7. Transport	£112.30	£91.90	£41.30	£86.40	<b>£94.00</b>
8. Communication	£15.30	£13.30	£12.30	£16.70	<b>£14.50</b>
9. Recreation & culture	£113.00	£65.60	£37.10	£70.10	<b>£86.00</b>
10. Education	£39.00	£6.90	£1.90	£19.80	<b>£23.80</b>
11. Restaurants & hotels	£62.20	£42.00	£32.00	£49.50	<b>£51.50</b>
12. Miscellaneous goods & services	£96.60	£49.30	£31.50	£42.10	<b>£70.40</b>
<b>Total expenditure</b>	<b>£877.40</b>	<b>£617.80</b>	<b>£425.90</b>	<b>£646.10</b>	<b>£724.20</b>
Other expenditure items	£98.20	£4.20	£1.50	£0.80	£52.20

Owner-occupied households spent the most, in monetary terms, on the majority of categories of expenditure, spending at least double that of any other tenure group on Health, Education and Household goods & services.

Spending on “Other expenditure items” was also highest for owner-occupiers since this category of expenditure was largely comprised of capital improvements to dwellings.

Households living in social rental accommodation spent the most of any tenure category on Alcoholic drinks & tobacco, driven by expenditure on cigarettes, whilst non-qualified renters spent the most on Communication.

In percentage terms (Table 3.2) social rental households spent a greater proportion of their total expenditure on Food (14%) than those living in the other tenure groups (10%).

**Table 3.2 - Percentage of average weekly household spending by tenure**

<b>Expenditure group</b>	<b>Owner-occupied</b>	<b>Qualified rental</b>	<b>Social rental</b>	<b>Non-qualified rental</b>	<b>All</b>
1. Food & non-alcoholic drinks	10	10	14	10	10
2. Alcoholic drinks & tobacco	2	3	5	2	2
3. Clothing & footwear	3	4	5	5	3
4. Housing, fuel & power	26	33	30	34	28
5. Household goods & services	7	5	6	3	6
6. Health	3	2	4	2	3
7. Transport	13	15	10	13	13
8. Communication	2	2	3	3	2
9. Recreation & culture	13	11	9	11	12
10. Education	4	1	0	3	3
11. Restaurants & hotels	7	7	8	8	7
12. Miscellaneous goods & services	11	8	7	7	10
<b>Total expenditure</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>	<b>100</b>

Notable differences are apparent for spending on housing when expenditure is broken down by tenure:

- the average amount spent per week on Housing, fuel & power is similar, in monetary terms (more than £200 per week) for owner-occupiers, private and non-qualified renters; each of these categories spends almost double that of households living in social rental accommodation (£127 per week);
- the proportion that Housing, fuel & power represents of total spending ranges from around a quarter (26%) for owner-occupiers to around a third (30% to 34%) for households living in any tenure of rental accommodation.

Figure 3.1 provides a further breakdown of housing costs by tenure, showing the percentages of average total weekly spending accounted by net rent, maintenance and repair, water and other services, domestic energy and house purchase costs (mortgage interest and capital repayment).

Figure 3.1 – Components of housing costs as percentages of average total household spending, by tenure.

This breakdown shows that whilst mortgage costs make up the greatest proportion of total spending for owner-occupiers (nearly 20%) this proportion is less than that accounted by net rent for households living in all categories of rental accommodation (between 23 and 29%).

Two principal factors underpin the different proportions accounted by mortgage costs and rent:

- owner-occupiers are more likely to be found in the upper quintiles of the income distribution;
- about half (51%) of owner-occupiers own their home outright and thus have no mortgage costs.

## Chapter 4 - Household expenditure by household composition

As might be expected, household expenditure is dependent on the size and make-up of households, i.e. on household composition.

Tables 4.1a and 4.1b show that the average total weekly household expenditure ranged from £315 per week for single pensioners to £1,115 per week in households containing a couple with at least one dependent child (aged 15 or under).

Table 4.1a - Average weekly household spending by household composition (£ per week)

Expenditure group	Person living alone pensioner	Person living alone non-pensioner	Couple- both pensioners	Single parent & at least one dependent child
1. Food & non-alcoholic drinks	£37.80	£33.90	£73.90	£74.40
2. Alcoholic drinks & tobacco	£7.70	£11.00	£13.10	£10.40
3. Clothing & footwear	£10.40	£11.50	£12.80	£25.20
4. Housing, fuel & power	£73.30	£176.20	£81.90	£157.70
5. Household goods & services	£24.30	£22.80	£45.60	£29.20
6. Health	£20.50	£14.70	£30.10	£15.00
7. Transport	£32.70	£62.70	£73.00	£59.40
8. Communication	£5.30	£11.80	£8.20	£15.40
9. Recreation & culture	£41.60	£54.90	£80.00	£59.80

<b>Total expenditure</b>	£314.60	£477.20	£532.60	£549.60
Other expenditure items	£23.40	£13.50	£46.60	£4.60

Table 4.1b - Average weekly household spending by household composition (£ per week)

Expenditure group	Couple both not pensioners	Couple with at least one dependent child	Other <sup>4</sup>	All
1. Food & non-alcoholic drinks	£74.70	£110.20	£89.30	<b>£73.70</b>
2. Alcoholic drinks & tobacco	£18.60	£16.40	£21.70	<b>£15.10</b>
3. Clothing & footwear	£31.90	£34.60	£33.90	<b>£24.50</b>
4. Housing, fuel & power	£234.80	£351.30	£199.90	<b>£205.00</b>
5. Household goods & services	£50.20	£63.70	£53.90	<b>£44.60</b>
6. Health	£19.00	£21.90	£25.60	<b>£21.20</b>
7. Transport	£112.30	£142.10	£110.30	<b>£94.00</b>
8. Communication	£16.60	£18.80	£19.60	<b>£14.50</b>
9. Recreation & culture	£106.20	£115.70	£99.80	<b>£86.00</b>
10. Education	£13.80	£51.40	£37.10	<b>£23.80</b>
11. Restaurants & hotels	£68.50	£65.60	£65.50	<b>£51.50</b>
12. Misc. goods & services	£70.00	£123.30	£75.20	<b>£70.40</b>
<b>Total expenditure</b>	<b>£816.50</b>	<b>£1,114.90</b>	<b>£831.70</b>	<b>£724.20</b>
Other expenditure items	£54.40	£99.00	£67.40	<b>£52.20</b>

As Tables 4.2a and 4.2b show, the proportions of total expenditure which households spend on the different categories of goods and services varies by household type. For example:

- pensioners (both single and couples) spend a greater proportion on Health (6%-7%) than other household types (2-3%);
- single parents spend the greatest proportion (5%) on Clothing and footwear;
- pensioner households (both single and couples) spend the lowest proportions on Housing, fuel and power (23% for single pensioners and 15% for couples), mainly due to many pensioner households no longer having mortgages to pay;
- non-pensioners living alone and couples with at least one dependent child spend the greatest proportion on Housing, fuel and power, (37% and 32%, respectively);
- pensioners (both single and couples) and single parents spend a slightly greater proportion on Food & non-alcoholic drinks (12-14%) than other households types (7-11%).

<sup>4</sup> Other includes: couples and single parents with children aged over 16; two or more unrelated adults; couples with elderly relatives; couples with one pensioner and other combinations not separately identified.

## Chapter 5 - Comparison with 2004/5 Household Expenditure Survey

Table 5.1 shows the average weekly spending of all households in Jersey as recorded by the latest (2009/10) and previous (2004/5) Jersey household spending surveys, in total and broken down into the categories of expenditure<sup>5</sup>.

Table 5.1 – Average household expenditure, 2004/5 and 2009/10; £ per week

Expenditure group	2004/5	2009/10
1. Food & non-alcoholic drinks	£61.70	£73.70
2. Alcoholic drinks & tobacco	£16.10	£15.10
3. Clothing & footwear	£24.80	£24.50
4. Housing, fuel & power	£184.00	£205.00
5. Household goods & services	£34.40	£44.60
6. Health	£14.70	£21.20
7. Transport	£72.80	£94.00
8. Communication	£15.20	£14.50
9. Recreation & culture	£89.60	£86.00
10. Education	£14.70	£23.80
11. Restaurants & hotels	£36.60	£51.50
12. Miscellaneous goods & services	£65.00	£70.40
<b>Total expenditure</b>	<b>£629.40</b>	<b>£724.20</b>

Total weekly expenditure, averaged across all households, rose from £629 per week in 2004/5 to £724 per week in 2009/10, an increase of 15%.

For comparison, over the same time period the all items Jersey Retail Prices Index (RPI) increased by 15%<sup>6</sup>. In real terms, therefore, (i.e. after adjusting for inflation, which includes the increase in GST) household spending in 2009/10 was, on average, at a similar level to that in 2004/5.

<sup>5</sup> For differences in the survey design between the 2004/5 and 2009/10 spending surveys, see Appendix A.

<sup>6</sup> The increase in the Jersey RPI is that from the mid-point of each of the spending surveys, i.e. from March 2005 to December 2009.

## Chapter 6 - Comparison with the UK

Table 6.1 shows the average weekly spending for all households in Jersey in 2009/10 compared with that of the UK for calendar year 2009<sup>7</sup>.

In comparing the data for the two jurisdictions, it should be recognised that household income has a significant impact on expenditure. The report on the 2009/10 Jersey IDS showed that the median equivalised household income in Jersey was almost two-thirds (64%) higher than that in the UK, before housing costs, and about half (52%) higher after housing costs are taken into account.

Table 6.1 – Average household expenditure, Jersey and UK; £ per week

Expenditure group	Jersey	UK
1. Food & non-alcoholic drinks	£73.70	£52.20
2. Alcoholic drinks & tobacco	£15.10	£11.20
3. Clothing & footwear	£24.50	£20.90
4. Housing <sup>8</sup> , fuel & power	£205.00	£123.20
5. Household goods & services	£44.60	£27.90
6. Health	£21.20	£5.30
7. Transport	£94.00	£58.40
8. Communication	£14.50	£11.70
9. Recreation & culture	£86.00	£57.90
10. Education	£23.80	£7.00
11. Restaurants & hotels	£51.50	£38.40
12. Miscellaneous goods & services	£70.40	£42.00
<b>Total expenditure</b>	<b>£724.20</b>	<b>£456.10</b>
13. Other expenditure items	£52.20	£24.50

Bearing in mind the slight difference in timeframes spanned by the two surveys, the average total weekly expenditure of households in Jersey was about three-fifths (59%) greater than in the UK.

The greatest monetary difference was for expenditure on Housing, fuel and power; with Jersey households spending about £82 per week more, on average, than those in the UK.

The greatest relative differences were for expenditure on Education and Health; Jersey households spending, on average, about three to four times more on these groups than households in the UK.

<sup>7</sup> Derived from tables presented in “Family Spending: a report on the 2009 Living Costs and Food Survey”, Edition No.2010, published by the Office for National Statistics.

<sup>8</sup> For treatment of Housing-related costs by the surveys in the two jurisdictions see Appendix B; note that expenditure on mortgage endowment policies is included in group 4 for Jersey but in group 12 for the UK.

As Table 6.2 shows, the percentages of total expenditure spent on each of the various categories were similar in Jersey and the UK. Housing, fuel and power accounted for the greatest proportion in both jurisdictions, at more than a quarter of total expenditure.

**Table 6.2 – Percentage of average weekly household spending, Jersey and UK.**

<b>Expenditure group</b>	<b>Jersey</b>	<b>UK</b>
1. Food & non-alcoholic drinks	10	11
2. Alcoholic drinks & tobacco	2	2
3. Clothing & footwear	3	5
4. Housing, fuel & power	28	27
5. Household goods & services	6	6
6. Health	3	1
7. Transport	13	13
8. Communication	2	3
9. Recreation & culture	12	13
10. Education	3	2
11. Restaurants & hotels	7	8
12. Miscellaneous goods & services	10	9
<b>Total expenditure</b>	<b>100</b>	<b>100</b>

*It is important to understand that the comparison of expenditure data presented in this chapter does not constitute a measurement of the relative “cost of living” between Jersey and the UK. Firstly, the effect of the different tax (direct and indirect) and social security systems in the two jurisdictions is outside of the scope of this report; and secondly household expenditure in a given jurisdiction will be dependent on income and also on lifestyle, including social and environmental factors.*

---

## Statistical Background & Methodology

### Survey design

Random samples of around 200 households were contacted each month to take part in the 2009/10 Jersey's Household Spending and Income Survey (HSIS). Each sample was stratified by parish: the proportion of households sampled in each parish corresponded to the proportion of households that the parish represents in Jersey overall. Sampled households were subsequently visited by one of a team of interviewers.

Computer Assisted Personal Interviewing (CAPI) was introduced for the first time in the 2009/10 survey. In previous rounds of the Jersey Households Expenditure Survey spending information had been collected by means of paper questionnaires which respondents self-completed. The new CAPI approach not only removed some of the burden from respondents but also improved data quality; the software included a number of consistency checks, and the interviewer was able to query any potential erroneous data at the time of interview. In addition, the data was manually checked a second time by office staff to optimise data quality and consistency.

### Questionnaire design

Household spending information was collected through a detailed questionnaire which asked about regular payments (such as rent, gas, electricity and telephone) and also about expenditure on larger items that are purchased infrequently. The reference period for larger items of expenditure ranged from three months for items purchased relatively infrequently (for example doctor's visits in the last three months) to twelve months for items that are purchased very infrequently (for example vehicle purchases over the previous twelve months). This constituted a further change in approach from the 2004/5 survey in which all reference periods related to the previous twelve months. The shorter reference periods used for the 2009/10 survey were introduced to reduce the burden on respondents, aid recall and improve data quality.

To capture frequent items of expenditure, each individual aged 16 or over in the household was asked to keep a detailed daily record of expenditure for two weeks. Information provided by all members of the household was kept strictly confidential. Each person aged 16 or over in the household who kept such a spending diary was subsequently paid £10, as a token of appreciation.

### Analysis outline

Once the data collection phase of the survey was completed a detailed process of data checking and aggregation was undertaken; the survey generated more than 200,000 individual payments.

Having calculated weekly expenditure for each respondent household, individual households were grouped together and the mean average expenditure for each item was calculated, to give the information presented in this report. Aggregation was carried out for all resident households and also for various sub-groups, such as income quintile, tenure and household composition.

Expenditure was averaged across all households, including those reporting zero expenditure on a specific item. A consequence of this approach is that all households are deemed to spend a proportion of their total expenditure on all items, whether or not an individual household actually purchases a particular good or service. This may be illustrated by considering housing costs: all respondent households are included when calculating average payments on rent and on mortgage interest, despite the fact that an individual household is only actually likely to pay one or the other. However, this conceptual point does not affect the relevance of the information presented in terms of understanding household expenditure averaged across all or sub-groups of households.

---

## Response

In order to maximise response for the 2009/10 HSIS, interviewers made at least four separate calls and sometimes more, at different times of the day, to households which were proving difficult to contact.

Of the 2,659 eligible households (see Table A1) the response rate was 43%. This may be considered to be a good response rate for a survey of this nature and represents a considerable improvement on the 2004/5 round of the spending survey which achieved a 29% response rate.

**Table A1 – Response of households**

	<b>Number of households</b>	<b>Percentage of eligible sample</b>
i Sampled households	2,862	-
ii Ineligible households <sup>9</sup>	203	-
iii Total eligible (that is, i less ii)	2,659	100
iv Unable to contact	500	19
v Refusals	1,004	38
vi Co-operating households	1,155	43

## Weighting

Whilst every effort was made to encourage the randomly selected sampled households to take part in the survey there was inevitably some variation in the willingness and ability of households to do so. In order to ensure that the set of respondents was representative of the population of resident households, the tenure distribution of the set of respondents was examined and compared with the known distribution for the Island's household population; each respondent record was then assigned a weight according to whether its particular tenure was over- or under-represented in the respondent set.

## Standard error

Given the stratified, random survey design, the standard error on the average total weekly expenditure is £15.40; this corresponds to an uncertainty due to sampling of 2%.

---

<sup>9</sup> Ineligible households include business addresses, institutions, vacant and demolished/derelict buildings.

## Appendix B

### Classification of spending

Household expenditure in this report is broken down into groups broadly based on the Classification Of Individual Consumption by Purpose (COICOP), the classification system used for Household Budget Surveys (HBS) across the EU. Table B.1 provides a broad overview of what each COICOP group contains.

Table B.1 - Broad definitions of COICOP expenditure groups

Group number	Group name	Includes
1	Food & non-alcoholic drinks	All fresh, frozen and chilled food brought home, soft drinks brought home
2	Alcohol drinks & tobacco	Off-sales of all wine, beer and spirits brought home, cigarettes, cigars and other tobacco
3	Clothing & footwear	Clothing materials, garments for men women and children, accessories, haberdashery, footwear
4	Housing, fuel & power	Rent, materials and services for maintenance and repair of dwelling, household energy, water household services (e.g. rubbish collection),
5	Household goods & services	Furniture, ornaments, carpets, household textiles, household appliances, tools and cleaning materials, domestic services e.g. cleaners
6	Health	Pharmaceutical products, medicine and medical products, optician, doctor, dentist, hospital and other medical fees
7	Transport	Purchase of cars, motor cycles, bicycles and spare parts, motor fuels and lubricants, motor repairs and other services, parking and other motor fees, transport by railway, road, air and sea
8	Communication	Postal services, telephone (fixed and mobile) and telefax equipment and services
9	Recreation and culture	Audio visual, photographic and information processing equipment, recreational items and equipment, cultural services, newspapers and books, package holidays
10	Education	Pre-primary, primary, secondary, tertiary and other education
11	Restaurants and hotels	Catering services, food and drink (including alcohol) bought in restaurants, cafes and bars, accommodation services
12	Miscellaneous goods & services	Personal care, personal effects, social protection, insurance, other services
13 <sup>10</sup>	Other non-consumption expenditure	Mortgage payments, domestic rates, holiday spending, money gifts and transfers

<sup>10</sup> Group 13 is simply a number given to all items outside the classification 1-12.

---

## Housing expenditure: treatment in this report

It is important to note that the COICOP group 4 (Housing, fuel & power) shown in Table B.1 does not include certain items that are considered by the classification system to be non-consumption expenditure, for example, mortgage interest and capital repayments, mortgage protection premiums and domestic rates.

Under strict COICOP classification, expenditure on housing costs is split in the following way:

### Housing costs classified in COICOP category 'Housing, fuel and power':

Actual rentals for housing

- net rent (gross rent less housing abatement)
- second dwelling rent

Maintenance and repair of dwelling

- central heating maintenance and repair
- paint, wallpaper, timber
- equipment hire, small materials

Water supply and miscellaneous services relating to dwelling

- water charges
- other regular housing payments including service charge for rent
- refuse collection, including skip hire.

### Housing costs found elsewhere in the COICOP classification system:

- household insurance
- structural insurance
- contents insurance
- insurance for household appliances.

### Housing costs **not** classified under COICOP

#### Other expenditure items

Housing: mortgage interest payments etc

- mortgage interest payments
- mortgage protection premiums
- rates, mortgage, insurance (second dwelling).

#### Other items recorded

Purchase or alterations of dwellings (contracted out), mortgage capital payments

- outright purchase of houses, flats etc. including deposits
- capital repayment of mortgage
- central heating installation
- DIY improvements: double glazing, kitchen units, sheds etc
- home improvements (contracted out)
- bathroom fittings
- purchase of materials for capital improvements
- purchase of second dwelling.

Thus, whilst COICOP provides an extremely useful and systematic means of classifying expenditure, as for any definitional system it can lead to concepts that do not entirely reflect real life.

Therefore, for the purposes of the results presented in this report, mortgage payments (interest and capital), endowment payments and domestic rates have been included within the Housing, fuel and power group.

As a result groups 4 and 13 shown in Table B.1 have been redefined as shown in Table B.2 for the purposes of this report.

Table B.2 Definitions of COICOP expenditure groups 4 and 13 used in this report

Group number	Group name	Includes
4	Housing, fuel & power	Rent, materials and services for maintenance and repair of dwelling, household energy, water, household services (e.g. rubbish collection), <b>mortgage interest and capital payments, domestic rates, endowment payments</b>
13	Other non-consumption expenditure	Capital improvements to main dwelling, holiday spending, money gifts and transfers

In both the summary and detailed tables presented throughout this report “Total expenditure” is defined as the total expenditure of groups 1 to 12, incorporating the modifications shown in Table B.2, because these groups represent real or final expenditure by households.

COICOP group 13, which includes items such as capital improvements, money transfers and off-Island (e.g. holiday) spending, is not considered to be final consumption expenditure. However, a small number of items in this category were captured by the survey questionnaires and are shown in the spending tables for completeness (as separate rows below totals) since they do represent an outgoing. Such expenditure is not included in total expenditure and is not commented upon.

Finally, to enable comparison with the UK (in Chapter 6) the UK data relating to housing expenditure (extracted from the ONS report on Family Spending, see footnote 7 on page 20) has been adjusted in order to correspond to the basis adopted throughout this report for housing-related expenditure, i.e. **both the UK and Jersey data presented throughout this report incorporate the modifications to the COICOP classification shown in Table B.2.**

### Definitions

Throughout this report, and in the survey work on which the analysis is based, the following definitions have been used:

A **household** was defined as one person living alone, or a group of people (not necessarily related) living at the same address, who share a shopping bill, eat together and share the same living space.

**Household types** were categorised according to the following definitions:

- Couple (both not pensioners)  
Two adults living together as a couple;
- Couple with at least 1 dependent child (15 or under)  
Two adults living together as a couple, with one or more children, of whom at least one was aged under 16 years;
- Single parent with at least 1 dependent child  
A single parent living with one or more children, at least one of whom was aged under 16 years;
- Person living alone (not pensioner)  
One adult living alone, below pensionable age (65 years for men, 60 years for women);
- Person living alone (pensioner)  
One adult living alone, of pensionable age (65 years for men, 60 years for women);
- Two or more pensioners (including couple with only one pensioner)  
Two adults living as a couple, at least one of whom is of pensionable age (65 years for men, 60 years for women);
- Other  
All other household types, including professional house-share, family with au-pair, two generation households.

**Household tenures** were categorised according to the following:

- Owner occupied  
includes households who own their home, with a mortgage, and/or States loan, or outright. This category also included homes that were being lived in for 'lifetime enjoyment';
- States, parish or housing trust rent  
includes any home rented from the States of Jersey, a housing trust or a parish;
- Qualified private rent  
includes any home being rented as a residentially qualified property;
- Non qualified accommodation  
includes lodging houses, lodgers in private households, staff, service or tied accommodation and 'non-qualified rental'.

### Income

Gross Cash Income was defined on a household level as:

all financial flows *into* the household, both unearned and earned, over the previous twelve months.

- 
- Gross cash income included:
    - earnings from any employment (including self-employment, bonuses, benefits in kind), over the previous twelve months;
    - income from pensions, including the Jersey Social Security pension, other countries' social security pensions, private, superannuation and occupational pensions;
    - income support awards, including payments paid directly to landlord, HMA fund and childcare provision;
    - benefits, from Jersey social security or other countries, e.g. maternity grants and allowances, sickness allowance, Christmas bonus, cold weather payments, TV licence schemes;
    - income from lodgers or buy-to-lets (profit only);
    - income from child maintenance arrangements;
    - income from shares, share options, dividends, fixed income and interest from savings;
    - income from any other source, including gifts and inheritance.
  - the actual value of assets and/or savings were *not* included in gross cash income.

### **Income quintile**

If every household were ordered according to its income, from the lowest to highest, the first 20% of households represent the “first income quintile” of households – i.e. those households who have the lowest income. The second income quintile is the next 20% of households, and so on to the fifth income quintile, which corresponds to the 20% of households who have the highest income.
