- Character of the building
- Noise and disturbance
- Significant loss of light
- Loss of privacy
- Traffic generation and Road Safety
- Car parking

Your comments

This area is of significant importance to Jersey in terms of the environment. This site is not suitable for 28 homes as it is in an area of natural beauty. The height of the site above sea level would mean that any new development would be seen for long distances and would spoil the coastline. Furthermore the site is definitely not suitable for 28 homes, with increased traffic causing noise and air pollution I object strongly to this development.

Signed: [REDACTED]
